HUMOR
IN our book we have tried to show two things—the record of the events that happened in the year that passed and the Carnival Spirit of Old New Orleans.

If the book serves in recalling happy memories of the year at Tulane, and also serves to remind you of the time in New Orleans when the Lord of Misrule holds sway and joy is unconfined, then our purpose is accomplished and we shall not have labored in vain.
DEDICATION

To

JULES BLANC MONROE
A.B., LL.B.

The crooning riverlet awakes to spin the giant machine when skillful direction precipitates it over the crest. At its source it gives better evidence of its potential strength. It awaits the Master’s hand to develop its latent powers.

The inspiring strength and constant understanding of one who has created a new measure of progress for Tulane, stands forth before the eyes of three thousand students.

With an affectionate salutation toward Jules Blanc Monroe, these three thousand wish to dedicate respectfully this, the thirty-fourth volume, of the JAMBA

LAYA
The President's Statement

Following a statement by Tulane University of its need of a medical clinic building and of the estimated cost of such a building, the General Education Board has appropriated the sum requested, namely, $1,250,000, for the construction and equipment of this building.

The new medical building will take care of all the work now conducted in the present Hutchinson Building on Canal street. It will provide for the instruction of the third and fourth year medical students with the necessary classrooms and laboratories and will furnish a better distribution of space, as well as more adequate equipment for this work. The new building, however, is intended to do much more than this. In it will be operated out-patient clinics for the various medical branches. These clinics will be arranged and conducted for the purpose of teaching medical students the practical treatment of patients in preparation for their future work.

The building will be erected on the property purchased recently by the University in the square adjacent to the Charity Hospital on Tulane Avenue. Plans are now being drawn up by the architects and it is hoped they will be completed at an early date. It will be necessary to conduct the clinic at first on a very small scale until the University is able to realize revenue from the Canal Street property to justify the enlargement of the clinics to a full-time operation.

NEWCOMB COLLEGE

PIERCE BUTLER, B.A., M.A., Ph.D.
Dean

Newcomb College was founded by Mrs. Josephine Louise Newcomb, in October, 1896. It was her desire to establish in this college a memorial to her daughter, Harriet Sophie Newcomb. In her will, which is dated May 12, 1898, she left to the administrators of the Tulane Educational Fund, for the benefit of Newcomb College, the residue of her estate after the payment of certain specified legacies. Mrs. Newcomb's feeling for the people of New Orleans and her desire to advance the cause of education of young women in Louisiana were the reasons that moved her to make this foundation. It was her specific desire that there should be maintained a simple form of daily religious exercises in a chapel or assembly room, but she specifically provided, "I desire that worship and instruction shall not be of a sectarian or denominational character."

There are at present seven buildings of fine construction upon the campus, and several smaller buildings. We have just completed a new dormitory, the Warren Newcomb House, fronting upon Audubon Place, which will probably form one unit in a plan of dormitories to be built. We are now building Dixon Hall, on the quadrangle fronting the Art Building, named in honor of President Emeritus B. V. D. Dixon. Dixon Hall, ready for the session of 1929-1930, will provide an auditorium seating about one thousand, with a fine stage; studio and practice rooms for the School of Music; and accommodation for the Library.

The purpose of the college is to foster the intellectual life in any way that may seem most helpful and promising for the maintenance of a high standard of culture, and it endeavors to equip young women for effective and intelligent service to society. The regular courses offered lead to the degree of B.A. or B.S., or for students in Art and Music, B. Design and B. Music.
COLLEGE OF ARTS
AND SCIENCES

EDWARD A. BECHTEL, Ph.D.
Dean

The College of Arts and Sciences is one of the oldest colleges of Tulane University, and with the exception of Newcomb College has the largest enrollment. Courses are offered leading to the degrees of Bachelor of Arts and Bachelor of Science. The curriculum in each case is planned so as to give a general education in fundamental subjects, and at the same time to afford specialization in some one group of studies, with a view to the development of general culture and training.

Special courses are planned for those seeking admission to the College of Law and the College of Medicine. Among the elective courses affording professional training is included the Department of Journalism. A new course has this year been introduced in Physical Education, leading to the degree of Bachelor of Education. The aim of this new course is to train men who can serve in the high schools as athletic coaches and at the same time teach certain academic subjects.
Emerson once said, and very truly, "The first wealth is health." It is more precious to a people than good roads, the improvements of rivers and harbors, the fostering of agriculture, or the conservation of natural resources. Upon good health depends efficiency and happiness. The line between efficiency and inefficiency is drawn upon the ability of the individual to go to work today; that between happiness and unhappiness upon the ability to enjoy the work of today.

Health is the great problem of life. In the past health has been dependent largely on curative medicine. In the future it will be largely upon preventive medicine. Statistics show that every fifty seconds a life is lost to our country through preventable diseases. Medical science believes that the known preventable diseases constitute only a fraction of those that can be prevented.

Ever since its establishment in 1834, the Medical College of Tulane University has been doing its utmost to raise a standard of medical education throughout the country. Now, after ninety years of active existence, it has taken its place with the leading medical colleges, not only of the state and country, but of the whole world.
THE COLLEGE OF ENGINEERING

DOUGLAS SMITH ANDERSON, B.A., M.A.
Dean

The College of Engineering offers courses of professional training in the fundamental principles underlying the various branches of Engineering and Architecture. The formulation of these courses is the outgrowth of the best thought of educators and the engineering profession and of our own experience during the last two decades.

The technical studies in the College of Engineering are contained in four divisions, called schools. The schools are divided into departments. A department includes subjects, or groups of subjects, which are similar in nature. The schools are: Mechanical and Electrical Engineering, Civil Engineering, Chemical Engineering, Architecture.

No candidate for a degree is allowed to restrict himself to the narrow training which might be imparted by any one school. Work in the technical departments of one of the above schools is made the backbone or principal part of a four years' course, and supplemental work is required in other schools in the college.
The purpose of this college has been, since its establishment in 1914, to offer substantial professional training preparatory to a business career. The instruction offered is planned for students sufficiently able and mature to do work of university grade, and no student is received unless prepared to do work of this character.

It is essential, also, to the permanent success of the college that its students approach their work in an earnest professional spirit.

In order to make the course available for business men and women, classes are also held at night from 8 to 9:45 o'clock. These classes meet in Gibson Hall, Tulane University, each course being held one night a week. By thus devoting only one night a week to attending a course, a student may take any of the night courses offered.
THE COLLEGE OF LAW

Rufus Carrollton Harris, A.B., LL.B., Jur.D.  
Dean

The Tulane College of Law was established in 1847 as the Law Department of the University of Louisiana. It was incorporated with its present organization in 1884, and the name of Tulane was added to perpetuate the memory of the public-spirited citizen who then endowed it. It has afforded legal training to thousands during the period of its existence.

The purpose of the College of Law is to provide opportunities and facilities for training equal to the best afforded elsewhere. It purports to inculcate a sound knowledge of both substantive and adjective law. However, the school recognizes a duty beyond equipping and training of men to become practitioners. Many of the University students find its courses valuable training for citizenship and business careers.

The curriculum of the College of Law is unusually attractive in that it is arranged to provide for the special training of those who intend to practice in Louisiana, and at the same time it is arranged to afford training to those who may wish to practice in any of the other states.

The College of Law owns a large and well selected library, which is recognized as one of the most complete in the Southern states. It is a member of the Association of American Law Schools, and has been given the Class A rating by the American Bar Association, and its degree is registered by the New York College Board of Regents. These are the standardizing agencies for law schools.
THE SCHOOL OF PHARMACY

CHARLES CASSIDY BASS, M.D., D.Sc.
Dean

This school was established in 1838. In 1908, the Pharmaceutical School of the Medical Department became the Department of Pharmacy of the Tulane University of Louisiana, and in 1913, with the reorganization of the divisions of the University related to Medicine, the School of Pharmacy became a part of the reconstituted College of Medicine.
The school holds membership in the American Conference of Pharmaceutical Faculties, organized to promote the interests of pharmaceutical education.
THE GRADUATE SCHOOL OF MEDICINE

HENRY DASPIT, M.D., F.A.C.P.

The Graduate School of Medicine is the Postgraduate Department of the College of Medicine of the Tulane University of Louisiana. From October to June, there may be found large numbers of medical graduates from this and other countries gathered here to take advantage of the review courses in order to keep abreast with the advances in the medical sciences or to equip themselves for the major specialties.

All instruction, didactic and clinical, is directed and carried on by men who are matured in the varied branches of medicine and surgery. During the forenoon, instruction is given in the Clinics and Wards of the Charity Hospital, Touro Infirmary and the Eye, Ear, Nose and Throat Hospital. Afternoons and evenings are spent in the Hutchinson Memorial Building, where all branches of medicine are covered in the laboratory and lecture room.
THE GRADUATE SCHOOL

John McLaren McBryde, Ph.D., Litt.D.
Dean

To men and women holding the Bachelor's degree from Tulane University and from institutions of equal grade the Graduate School offers courses leading to advanced degrees in the fields of the liberal arts, the sciences, and engineering. In addition to these, advanced courses in medicine leading to the degrees of Master of Science and Doctor of Philosophy are given in the College of Medicine by members of the Medical Faculties who have been elected to membership in the Faculty of the Graduate School. Opportunities are afforded for clinical work in the hospitals of the city under the guidance of well-known specialists. Thus the Graduate School presents carefully planned courses designed for teachers desiring to gain a broader and deeper knowledge of their chosen fields and for graduates in engineering and medicine wishing to specialize in some particular lines of work.

DENTAL CLINIC

Alfred A. Lee, D.D.S.
Director

At the close of the session, 1927-1928, the School of Dentistry was temporarily suspended on account of the lack of funds for endowment. Owing, however, to the great service rendered by the dental clinic to the school children of New Orleans, as well as to the many patients who are unable to pay for such service, the Board of Administrators of the Tulane Educational Fund decided to finance the clinic another year, in the belief that through it, the University can render a most valuable service to the health and welfare of the people of New Orleans.

The clinic staff consists of four full-time, three half-time, and four part-time operators. The Clinic is open daily, except Sundays during the entire year from 9 A.M. to 4 P.M., and on Saturdays from 9 A.M. to 12 M.

Since the causes of many disease have been attributed to local infection around the roots of teeth, unhealthy gums and unclean oral cavities, it is earnestly hoped that some means may be found by which the work in the dental clinic may be continued.
COURSES FOR TEACHERS

Dean

For many years Tulane University has operated a number of courses to meet the need of those whose hours of employment will not permit attendance upon regular classes. The classes are scheduled in the afternoon hours and on Saturdays, thus making it possible for teachers especially, if they so desire, to add to their equipment in many subjects.

These courses are of full college grade, conducted by regular members of the faculty, and in the case of students who have satisfactorily fulfilled the entrance requirements, credits obtained may be applied towards a degree.

DEPARTMENT OF PHYSICAL EDUCATION

Mr. Bernard Bierman
Director

The work carried on by this department may be divided into several different classifications.

1. Giving the required physical education work to Freshmen.
2. Giving instruction in the four year course of Physical Education and Athletic Coaching.
3. Sponsoring and administering all forms of intra-mural athletics.
4. Inter-collegiate athletics.

There has been a steady and rather rapid increase in the number of men active in one or more of the four branches. During the past year about three hundred Freshmen have taken the required work, fifteen have enrolled in the four-year course, at least three hundred men have taken part in intra-mural athletics, and over two hundred have been candidates for inter-collegiate teams.

The Department of Middle American Research

FRANS BLOM, Director

Due to its geographical situation, New Orleans is the logical location for a base for studying the countries immediately to the south, these countries so rich in historical background and with so many undeveloped potentialities that their future development promises to be one of the most interesting stories of the coming years.

To the coordination of four fortunate circumstances—the broad vision of a man who foresaw the need for and possibilities of such a department of research; the existence in this city of such an excellent educational institution as Tulane University; the fact that a rare collection of material on Mexico and Central America was about to be offered for sale; and the generosity of a man interested both in the University and in the field to be studied, the Department of Middle American Research owes its existence.

The Department was founded in 1924 for the purpose of advanced research into the history, archaeology, botany, natural resources and products of Mexico, the Central American countries, and the West Indies. Its work was planned with definite aim of gathering and disseminating information in regard to so-called Spanish America and, through fuller knowledge of and closer contact with these peoples, to help maintain friendly relations between the United States and its neighbors to the south.

The Department has been long developed along four distinct but closely related lines, namely, the library, research work, expeditions and collections.

Its idea of service has been carried out to some extent through personal contact, correspondence and printed publications, in this way making known the result of some of its investigations, and thus imparting to prospective visitors to Mexico and Central America information in regard to the countries they are about to visit; supplying business men with helpful economic information and furnishing Mexican and Central American citizens with knowledge which they seek from time to time. Opportunities for service of this sort will grow as the book funds of the Department increase and the library is able to supply the latest information obtainable.
Public interest in the Department has been clearly indicated by the generous space allotted by local and national newspapers to information supplied by the Department in regard to its Expeditions and general growth. Not only have friends made generous individual gifts of books and museum pieces and loans of whole exhibits in particular fields, but, through the formation of the Exploration Society, they have united to give financial support for the purpose of sending expeditions into the field.

Miss Matilda Gray and Messrs. Henry and William Gray, of Lake Charles, Louisiana, as a tribute to their father, made possible the John Geddings Gray Memorial Expedition which spent eight months of 1928 in the land of the Mayas, making studies which will throw further light upon the history of this interesting people.

The completion of the extension of the New Science Building in the spring of 1928 almost doubled the quarters of the Department. This addition not only permitted the exhibits of the collections to be displayed to better advantage, but also provided the library with more adequate stack space and an attractive reading room.

Dr. Smith
General Athletics

Since 1928 has been a period of athletic renaissance at Tulane and since 1929 gives promise of being a mile-post on a new road of athletic progress, we see it fitting to record in this Jambalaya a brief survey of such advancement. To the Tulane Athletic Association as sponsors of new movements in the field of sports, all Olive and Blue boosters must now bow.

Headed by Mr. Paul Jahncke and by competent Athletic Director Wilbur C. Smith, the Tulane Athletic Council having made possible the monster stadium on Willow street, itself a monument to sports' progress here, have now opened to Tulane's warriors a series of ultra-modern concrete locker rooms situated under the great scoop. Sad to say, we still lack sufficient gymnasium facilities. The same energetic board, however, has expressed the hope that within a few years they will be able to offer Tulane a new gym which can adequately accommodate her 2,000 male students. With these innovations we will be able to boast the best athletic equipment in the South.

It is also our privilege to introduce in the following pages forms of sport hitherto more or less strange to Tulanians and which indeed will care for any athletic talent previously unrewarded. When this copy went to press fencing was well under way under the direction of Coach Keith Kahn; Coach Hosen was developing a large number of promising boxers, promising them meat galore in a schedule not then arranged. Wrestling classes were writhing energetically under the experienced eye of Dr. Teasley. With internationally famous Coach Mercer Beasley in charge, Tulane's net team was anticipating extraordinary success in the spring. Basketballers were setting a high par while Bernie Bierman alternated his expert attentions between them and fall gridders, who indeed give promise of returning the fabled 1925 football supremacy to home grounds.

In prophesying for the future, let us not forget to underscore the past year as one rife with athletic achievement. A Tulane wrestler captured first honors in the S. A. A. U. matches last spring and two others reached the finals regardless of reports of outside strength. Two brilliant court champions annexed the Southern Intercollegiate Tennis Doubles trophy for Tulane's Hall of Fame. Two great stars redeemed a luckless track season. Six wins, three losses and two of these to national leaders, and a tie was all and more than could be fairly expected from the football team. So 1928 passed for Tulane's athletes leaving reason to expect super year followed by super year.
CAPTAIN CHARLES RUCKER
The Football Season

The Green Wave of 1928 was no mere ripple. Led by Captain Charley Rucker and Captain-elect Bill Banker, 265 points were amassed while the opponents netted only 76. L. S. U., with one of its strongest teams in years and fresh from a victory over Georgia, was bought to a standstill, a perfect standstill, 0-0. Three of the ten games played were lost, but these were to the South's strongest elevens, Georgia Tech, Vanderbilt and Georgia; teams which were played on three successive Saturdays. The Golden Tornado, national champions, won by the scant margin of two touchdowns made from forward passes in a gruelling battle that weakened the team for the Georgia and Vanderbilt games, and from which the Greenies never fully recovered until the fracas with L. S. U. To single out individual players as especially deserving of praise would be unfair to the team as a whole. The backs produced more than twice as many points as were netted by the 1926 and 1927 teams. From end to end the line was as great a forward wall as Tulane ever put on a football field. Indeed, of the seven touchdowns made by Tech, Vandy and Georgia, four were made on passes, one on a fumble and but two through the line. Bill Banker, the Blonde Blizzard, with 123 points to his credit, led the South in scoring honors and was second in the nation. He was picked on several All-Americans and was virtually a unanimous choice for All-Southern. Rucker, Holland and Banker were the recipients of gold watches by virtue of their selection to play in the annual game between the northern and southern divisions of the Southern Conference. There is no doubt in the minds of all that next year the strongest team in Tulane's history will go into action. True, "Cal" Evans, great roving center if ever there was one, Wall, Hooper, Eskridge, Butuad, Walker and Sentell will be lost to the squad. But we will hear again those familiar names that we have heard for the past two years: Charley Rucker, Ike Armstrong, Bill Banker, Ford Seeuws, Dick Baumbach, Fatty Oelkers, Lizzie Ford, John Whatley and Al Spiess. We will hear once more the names we cheered last year: Bo Bodenger, Elmer McCanse, Jack Holland, Preacher Roberts, Jerry Dalvrmple, Brute Mangum, Rabbit Whatley, "Speck" Young, Adolph Jastram, Elmer Massey, Abernathy, Anderson, McGehee and McCloskey. Coming up from the Freshman ranks will be: deColigny, Glover, Dawson, Bankston, Upton, Haik, McCormick, DeBuys, Sumlin, Haynes, Lawrence, Schneidau and Stroble.

Tulane 65, Louisiana Normal 0.

Tulane breezed through its first game with little or no opposition. The backfield combination of Armstrong, Seeuws and Banker, with Hugh Whatley substituting for Seeuws, gained at will. The Blonde Blizzard led in scoring with four touchdowns, one of which was made on a sixty-yard run after having intercepted a pass. Seeuws and Whatley each accounted for two touchdowns, and Hooper and Jastram contributed one each. Nearly every man on the squad saw action.

Tulane 51, Mississippi A. and M., 6.

The Green Wave swelled to tidal proportions in its next encounter, and deluged the unsuspecting Aggies with a flood of touchdowns. Two beautiful broken field runs early in the first quarter, one of eighty yards for a touchdown by the irrepressible Banker and another of ninety-
three yards by the fleet Ford Seeuws, served to break the spirit of the Mississippians and toward the end of the game Coach Hancock's weary charges were extended to stop the rush of the light brigade: Hugh and John Whatley, Jastram, Massey and McGehee.

**Tulane 0, Georgia Tech 12**

In the case of Peter Pund et al. vs. Charles Rucker et al., though there were forcible and heated arguments both pro and con, the decision was rendered 12-0 in favor of the Pundits. A running battle between two fast backfields had been anticipated, but the game developed into a fight between two lines, who repeatedly smeared the opposition before the interference could form. The speed of Banker, Seeuws and Armstrong availed little against the defensive play of Pund, Drennon, Speer, Maree, and the other Tech forwards. The Tornado's luminaries, Thomasson, Mizell and Lumpkin were less effective than in any game of the year, and, but for two passes, one of 24 yards and the other of 17, both on fourth down, the game would have ended 0-0. Let it not be thought that it was devoid of thrills. On one occasion, Tulane had the ball on the eight-yard line with two yards to go for a first down. Tried and failed. Another time, Fitzgerald intercepted a pass on his own fifteen-yard line. The tackles, as always in a game with the Yellow Jackets, bore the brunt of the battering. Young, Bodenger, Evans, Roberts, Holland—all played well.
Tulane 6, Vanderbilt 13

One of the cleanest games, one of the most thrilling ever played in a Tulane stadium was that with Vandy. The Commodores scored twice in the first half before Tulane could get started. Soon after the second tally, following a series of beautiful end runs and off tackle smashes by Banker and Secuws, the Blizzard tore the Vanderbilt line to shreds to carry the ball over the goal. That ended the scoring, for though Tulane had several chances in the second half, due to frequent fumbles at crucial moments and to Armistead's long, well-placed punts, those chances were not realized. One of the features of the game was the beautifully executed tackle of Jimmy Armistead by Ike Armstrong, when the Commodore star had eluded the field and was out in the clear.

Tulane 14, Georgia 20

Still suffering from the bruising defeats on the two preceding Saturdays, Tulane lost to Georgia in Athens by the margin of a disastrous fumble that was converted into a touchdown. The Bulldogs got off to a flying start in the first quarter when they scored two touchdowns in quick succession. Harvey Hill was the Big Bertha in the offense, running 85 yards for the first and tossing a 30-yard pass to Maffet for the second. In the next quarter, Tulane uncorked a drive that ended when Hugh Whatley snatched a pass from the air and stepped five yards to the goal. The fourth touchdown of the day was the marginal one by Maffet, who picked up a
loose ball on the 25-yard line and raced the remaining distance to that final fatal thin white line. The last score followed four passes completed to Roberts, which alternated with off tackle dashes by Armstrong, and which culminated in a seven-yard successful scamper by Bill Banker. It was a hard game to lose.

**Tulane 27, Millsaps 0**

A letdown was the natural result of trying to crack in a row, three such tough nuts as Tech, Vandy and Georgia. The Millsaps Majors, with Miller in the forefront, presented a scrappy band of hard, clean fighters. The half ended 7-0 and it was not until near the end of the third period that the backs began to get going. When they did, Ike Armstrong shone as the individual star. A sparkling run of 27 yards for a score by Banker, in which at least every man on Millsaps had a chance to make the tackle was the outstanding play. Bill has made longer runs but never one more brilliant.

**Tulane 13, Auburn 12**

A kick from placement for the extra point after touchdown, decided the annual game with the Auburn Plainsmen. Tulane started with a flashing offense and before the visitors awoke to the fact that it was not ping pong, the scoreboard read 13-0. It looked like a big day for the home troops, but penalties and fumbles ruined the moneyed ambitions of the wise boys who
had given points. The Plainsmen came back strong in the second half with a combined running and passing attack that produced results once and then once again. When the two teams lined up for the play after touchdown, Tuxworth dropped back as if to kick. The ball was snapped to him, but there were no more points chalked up that Saturday, for Banker intercepted the pass from Tuxworth to Sellers. Armstrong furnished the crowd its biggest thrill when, on a reverse play, he knifed through tackle to the open field and sidestepped his way 55 yards to the goal line.

**Tulane 41, Sewanee 6**

The final score of the Sewanee game might indicate that it was a set-up. For three periods it was a bitter fight in which every yard gained was a yard doubly earned. The half ended 7-6. Then something happened to the Wave toward the end of the third quarter for it cut loose, scoring 34 points, 27 in the final period.

**Tulane 47, Louisiana College 0**

The game with Louisiana College was a light limbering up affair, preparatory to the annual L. S. U. melee. Bill Banker with three touchdowns ended his point scoring for the year. Ike Armstrong and John Whatley, the latter with a 60-yard sprint to his credit, played fine offensive ball. Evans, Bodenger and McCance played havoc with the week-enders.
Tulane 0, L. S. U., 0

The two rivals for football supremacy in Louisiana—other colleges to the contrary, notwithstanding—grappled to a scoreless deadlock in the hardest fought game of their long series. Only twice before, in 1912, and in 1914, have there been tie games. The first downs tell the story, only four for Tulane and two less for L. S. U. Time and again linemen from one team or the other broke through to nab the runner before he could fairly start, and both forward walls were impregnable when the ball was in a crucial section of the field. The bitterness of the struggle is illustrated by the fact that Broncho Brown, Tiger star, gained only one more yard than he lost. It was a game not without thrills. On two occasions, Bill Banker and Ike Armstrong broke away and seemed to be loose on runs certain to terminate over the goal. Twice, Brown and Stovall had only the Tulane safety to stop him. They were stopped. The sensation of the day came in the third quarter and the Tulane stands went wild when the Blonde Blizzard apparently went over for a touchdown. Unfortunately, the referee—who first threw up his hands as a signal for a goal—ruled that when Bill was tackled, though he fell across the line within bounds, his right leg had gone out of bounds before he fell. It was the fourth down and the ball crossed hands on the six-inch line. L. S. U.'s big chance to score was in the first quarter, following their only two first downs. Stovall raced through a gap opened by Tinsley and was downed by Banker, the safety, after a twenty-four yard gain. On the next play, Brown delayed, teimed to the left and shot off right tackle into the open with one man interfering for him and with only Banker between him and a touchdown. The L. S. U. stands burst into a great cheer. The Tulane stands rose and gasped. With beautiful headwork Bill eluded the interferer and nailed the runner. The crowd still gasped for breath as the Tigers lined up seven yards from the Greenies' goal. Flesh and bone and muscle ground together as once, twice, three times, Reeves rammed and battered his way forward. A fourth time, they lined up. The ball was on the two-yard line. Tinsley, Nesom, Ellis, Jones and Wilson went down with dogged determination. McCance, Bodenger, Evans, Oelkers and Rucker planted themselves in the solid earth, arms swinging. Four defensive backs and two ends made ready to dive. Snap, crash, and two lines merged into a circular, milling mass of humanity. The whistle blew. Legs and arms took shape. The ball was still on the two-yard line. A dead silence from one side. Cheer after cheer from the other. To designate the stars of the fray would be incomplete unless one specified their magnitude, for all were stars. Bodenger and Evans played the greatest games of their careers. Armstrong and Banker were as great defensively as they have ever been offensively. McCance and Holland, playing opposite the All-Southern Tiger Captain, Tinsley, completely outshone him. Rucker, Roberts, Oelkers and Wall held up their side of the line in superb fashion. It was a great game. a fitting climax to a season of spectacular football.

The Basketball Season

As this year's Jambalaya goes to press the Tulane basketball season is at the half-way mark. Following an early defeat by the strong Alabama squad, six straight games have been won, all from Conference foes. Every indication points to a highly successful season, one that will undoubtedly terminate with an invitation to play in the Southern Conference Tournament. Captain Dave Drezinski, veteran guard; Roberts, Walsh and Mangum, brilliant newcomers, and Savoy, Jones and Ford, lettermen, constitute one of the strongest teams in Tulane's basketball history.

The first series—that with Alabama—was split. Though Tulane led the greater part of the game, the opener was lost by the score of 25-22. The second game, a thriller, told a different story. Tulane was never behind, but twice the count was knotted. At the conclusion of the game the score was 22-22 and five minutes were ordered to break the deadlock. As the play proceeded in the extra period the gathering rose to its feet. Both side were guarding like demons and neither could break through for a chance at the basket. Then Woolen Walshe slipped through the Crimson defense within a few feet of the goal and with little effort looped the winning points.

In the next series the cagers from the University of Mississippi, Conference champions, were humbled in convincing fashion. Tulane took both games by the score of 42-30 in the first and by 40-33 in the second. The Greenies seemed a new team with Preacher Roberts back in the line-up, following his recovery from an illness that incapacitated him for the Alabama game. Tulane played inspired ball, the entire team working with perfect precision on the offense and presenting a defense that brought up shades of Lind, Morgan, Martin and the Hennicans. In the first fracas the score at one time actually stood 19-3.

The next victim was Mississippi A. and M.; though somewhat below the form displayed in turning back "Ole Miss," Tulane won both games with plenty to spare as the scores indicate. The result of the first game was 30-25, of the second, 27-18. Woolen Walshe stood out again for Tulane, while Mangum and Drezinski played their usual good brand of ball.

CAPTAIN LEE O'PRY

1929
The Baseball Season

Seven letter men from the nine of the previous year reported to Coach Flournoy last spring and with them a wealth of promising material. Accordingly, "Peggy" turned out a scrappy, hard-working, hard-hitting outfit.

The season opened with a two-game series at Montgomery, Tulane dropping both to a strong Auburn team. Poor fielding and costly errors lost the first game, 1-6, and the second, 3-9. Barham and McCloskey bore the pitching burden. In both games Menville's hitting and Crouere's fielding were outstanding.

The first of the battles between Tulane and Alabama was called in favor of Jupiter Pluvius, but the two teams fought out a double-header at Tuscaloosa the next day. Alabama turned the Greenies back with a shutout in the first game. O'Pry's bat collected most of the hits. George Porter failed to upset Alabama in the second encounter and Tulane was shutout again, 5-0.

In the first home game L. S. U. received a good licking, 7-4. Beating these boys proved a hard task and the superior class of baseball which the team displayed was every bit a necessity.

As undefeated-in-the-conference nine, Mississippi A. and M. bombarded base hits all over the lot to beat the Green, 12-4 in the first game of a two-game schedule. Barham and McCloskey proved helpless before the visitors' bats. However, their win-streak came to an end the following day when George, establishing himself as a first-class hurler, pitched a 9-2 game. Baumbach and Johnny Menville hit in superb form.

John Menville's four-bagger almost won the next L. S. U. game for the home team, but the Tigers' ninth-inning rally upset whatever hope Tulane may have had of keeping the State University from winning a game. L. S. U. won 7-6. In the second battle with the Tigers George pitched another fine game and aided by Menville's hitting and homer, the second in two days, Tulane won 6-3.

A non-conference meeting with Iowa State baseballers also figured on the schedule. Tulane won the first, 2-1. Barham stopped whatever designs the Westerners may have had of having a slugging bee, while Baumbach and Crouere did their bit with the bat. The Iowans, however, put a gloomy finish on the series by walloping the Greenies, 6-1 in the second mixup.
Menville and McCloskey shared batting honors, while Crouere and Baumbach lagged not far behind. Good fielding by O'Try, Crouere and Suehs was a factor in every game. Coach and team merit praise for the season. In his first year as coach, "Peggy" Flournoy turned out a creditable team whose .252 batting average was a jump of more than a hundred points over that of the previous season. Bright spots in the 1928 nine, coupled with a victory over L. S. U., foretell a successful 1929 season.

Baseball had not attracted the meagerest attention as a major sport at Tulane till the past spring when excited crowds banged their feet energetically on the boards of the Old Stadium corner stand at every game. Like all Tulane sports with shady pasts, baseball is destined to "come out of the fog" and take its place among Tulane's big sports drawing cards. It is not unwise to predict that, Old Man Weather allowing, 1929 will be baseball's big year. The record of the 1928 team, plus a good schedule, plus a nine letter man nucleus, makes a basis for this prophecy.

Psychologists say that man's nature causes him to take out his grudges on his fellow men. If such be the case, beware, O opponents, of Tulane's baseballers. The lineup of the Green is bristling with hard-worked medics and they love to slaughter the apple with the bat after a hard day among the bones. All of which is demonstrated by Menville's and Crouere's batting sprees of the past season.

In the inattention that baseball has unjustly received, we are inclined to lost sight of the fact that Tulane's greatest ambassadors of sport have been intimately connected with the game here. Coach Flournoy was as skilled a baseman as he was a football player. Carl Lind and Eddie Morgan, who used to wear gloves for Tulane at first and second base, respectively, were a great source of pride to any Tulanian who watched the rumpus these boys raised in the big leagues while with the Cleveland Indians. Lind's batting average was a source of envy to some of the country's greatest swatters. If such is the calibre of players here, then such ought to be the interest in baseball.

At the time of this writing nine letter men were promised the team for 1929. McCloskey, Barham and George supply the pitching talent and have several years of baseball experience behind them. Crouere, Suehs, Menville and Baumbach take care of the batting average. Such clever fielders as Marquere and Marx look after whatever his opponents may collect.
The Track Season

Handicapped by poor weather during practice time and by an unusually difficult schedule, the Tulane track team struggled along in noble fashion to win a single meet out of three possible encounters. The development of a few great individuals featured what success Tulane garnered.

The season saw John Oelkers, husky weight star, twice threaten the Southern Conference record for the shot put and once excel it, that time, unfortunately unofficially. John Whatley distinguished himself in the dashes and made a record that well merited his election as captain for the 1929 season.

In the first meet, the one with Alabama, Whatley equalled the school record for the 100-yard dash, tearing the distance in ten seconds flat. Whatley also won the 220 event in the good time of 22 3-5 seconds. Trunzler’s first in the quarter mile, Davidson’s in the pole vault, Oelkers’ in the shot put and discus, Collins’ in the javelin and Ford’s in the high hurdles were largely responsible for Tulane’s capturing the meet 74 3-7 1/2.

In the L. S. U. track meet Tulane lost 33-84. Oelkers made a mark of 46 feet, 4 3/8 inches in the shot put, winning the event and eclipsing the old Tulane record. “Fatty” also won second place in the discus event. Whatley was bettered in the dashes, getting two seconds. Allen, Wolfe and Ford took seconds in the 440, mile and high hurdles respectively, and Davidson poled high to tie for first in the pole vault. Gormley’s stars, several weeks later, carried off the championship of the Southern Intercollegiate Conference. On the same day the Tiger Frosh walloped the Green Yearlings, 27-18. Hugh Whatley, younger of the fleet pair of Whatley’s gave great promise of varsity triumphs by winning both dashes.

The next disaster came from Auburn. Plainsman Snyder burnt up the track in the dashes and left the Greenies blinking. They had plenty of other winners, too, and Whatley, Oelkers and Wolfe were insufficient armor against the Polytechnic “whirlwind team.” The score was 43-60.

Unluckily for Tulane, the Mississippi Aggie meet was rained out.

Oelkers wore the Olive and Blue well at the S. I. C. meet in Birmingham, win-

wing a second place in the shot put. John Whatley finished fifth in the dashes among a fast field of speedy sprinters.

Shortly before this writing, Coach Fritz Oakes issued a call for track candidates. He found himself faced with the loss of Harry Monroe, Leonard Chamberlain, Crawford Davidson, Charlie LeBlanc and Dick Rogers, who in previous years have starred in distances, high jumping, pole vaulting and field events, respectively. These losses were partly offset, however, by the brilliant prospects on hand. In addition to letter men John Whatley, John Oelkers, Herbert Ford, Sheldon Blue, Falvy Barr, James Trunzler, Wolfe and Pat Ryan, Fritz's call was answered by John Whatley, Bill Banker, John Phillips, Brainerd Montgomery, Norton Wilson, Elmer McCance, John McCloskey, Preacher Roberts, Quealey Walker, Wright Frierson, Billy Scott and Spencer.

The team's sprinters will be culled from the Whatley brothers, Bill Banker, who incidentally has twice been high point man in the interfraternity meet; Barr and former Warren Easton star, Phillips. "Red" Trunzler and Banker will probably be trained for quarter-mile races. Wolfe, Norton Wisdom and Brainerd Montgomery figure among the distance runners. Weight for weights will be the case in these events for McCance, Roberts and Oelkers will prove first-class heavers. Walker and Scott are Tulane's pole-vault material. Frierson's high jumping has gained him the job for this spring.

Meets with Alabama, L. S. U., Mississippi A. and M. and others have been prepared for spring 1929. The manager of track this year is John Labouisse and his assistants, William A. Bell, Jr., and Reed Sherwood.
Tennis

With the opening of new courts in the old stadium enclosure interest in tennis at Tulane was given a new and permanent impetus. Not the blasting winds of fall and winter, 1927, could discourage student enthusiasm and consequently plenty of material for a tennis team was on hand in the spring. Seeding out top-notchers was accomplished by means of a tournament open to the whole school. Maurice "Dooky" Bayon swept through excellent opposition to win highest honors, which was no surprise to Tulanians who knew that Bayon is one of the highest ranked players in the South. The tournament over, the team got down to the business of setting up a notable record for itself, and right in the face of a hard schedule. Alabama and Florida, both powerful teams, were tied; Southwestern was beaten, while Texas handed the team its only drubbing.

Tulane played its first contest with Alabama. Unfortunately, Maurice Bayon couldn't participate, or there is little doubt that the scales would have swung in the Green's favor. Gilmour and Stuart both won their singles bouts and paired together, won the doubles, collecting enough points to tie the match. Tuscaloosa saw the event.

Playing on home courts, the Tulane netmen swept Southwestern back scoreless. Wehrmann, Gilmour, Parker, Stewart and Dinwiddie easily collected winners' scores in the singles matches, while Wehrmann and Stewart and Parker and Dinwiddie took off the honors in the doubles.

The team's most notable effort was made against the University of Florida tennis team which owned a string of tennis luminaries most prominent of whom was Gustave Feuer, later to be declared runner-up in the Southern Conference singles. The two teams deadlocked with matches at three all.

A great, giant-powered Texas team took five matches from the Tulane varsity and so delivered us the year's only defeat. Bayon went down before Berkeley Bell, who stands high on the list of national junior players, and like outcome resulted in all other singled matches. The doubles matches, however, were a different story, Tulane's champion pair, Bayon and Chamberlain, winning an easy victory over the Longhorns' best combination.

The University had the singular honor last year of being the scene of the Southern Intercollegiate Conference Tennis matches. Ten universities from throughout the South sent aggregations to New Orleans to put their hand in the grab bag and snatch at titles. Florida, Texas, North Carolina, Georgia, Georgia Tech, Vanderbilt, Ala-

192
bama and many others were included in the list. The matches proved to be the most exciting diversion in tennis that New Orleans had ever witnessed. Every day the stands ranged along the new courts were laden with spectators. After plunging far into the latter rounds of the tournament singles, Bayon and Chamberlain lost out and the ranks gradually thinned till one day Gustave Feuer, of Florida, and Donald Cram, of Vanderbilt, being the only ones left, fought out the singles championship before what was probably the largest crowd of tennis spectators ever assembled here before. After five gruelling sets Donald Cram walked off the courts with the Southern Inter-collegiate singles championship crown on his head. A few days later, Tulane got the very pleasant thrill of seeing another crown, the doubles crown, being worn by its two sons, Bayon and Chamberlain, who had decisively defeated Feuer and Yennawine of Florida in the finals after coming through a field incomparable for the difficulties it presented.

With the accession of Mercer Beasley, nationally known tennis coach and for many years coach of the Cuban Davis Cup Team, as mentor of this year’s squad and with the return to school of Clifford Sutter, nationally ranking junior, the 1929 team promises now to be a hundred per cent outfit. Bayon, Wehrmann and many others of last year’s squad have returned and reported to Coach Beasley, further accentuating good predictions. For a second year Tulane has been chosen by the Conference as the scene for the annual tournament.
Golf

The golf season at Tulane jumped off to a precipitous start when in the first meet of the year, the Vanderbilt team was sent home with a stinging 9-3 defeat. George Bush and Bob Wehrmann paired in foursome against Vandy’s best, won their match easily, while Louis Caron and Herbert Parker were doing the same thing to the other pair of Tennesseans.

Though the Tulane golfers play no fixed schedule, they have been accustomed to playing a number of Conference opponents during the year and will probably continue this policy till the Athletic Council organizes matches more completely. At the time of this writing, the team looks forward to a number of interesting matches which it is hoped Conference challengers will soon offer.

The Green’s Number One man, George Bush, is present holder of the Louisiana State championship and looms as a possible contender for the Intercollegiate crown within a few years. Bush’s stellar game, coupled with the golfing ability of Wehrmann, Caron and Parker, ought to make the team’s record a high one; so golf promises to be recorded as one of the University’s best athletic bets.

Newcomb Athletics

Athletics at Newcomb hold an important place in the college life of every student. With a beautiful gymnasium, with an adjoining swimming pool, and with spacious and beautiful grounds for all outdoor games, every sport is taught and practiced. Not only are there games such as hockey, basketball and baseball for active, energetic girls, but there are the minor sports, such as croquet, bowling and ping-pong that never fail to appeal to the less athletic type.

The schedule of events, divided into a fall and spring program, is a full one. The season is started off with Newcomb ball and volley ball, which is played on the outside courts. These are followed by Newcomb basketball along with the opening rounds of the croquet and tennis tournaments. Instructions in the minor sports of croquet, bowling, swimming, fencing, dancing, tennis, horseshoe, archery, apparatus work and ping-pong are held at certain periods throughout the year with the respective tournaments or exhibitions bringing them to a close. Since every girl must enter at least one tournament, there is a great deal of interest aroused and with the increasing popularity of ping-pong, it promises to be one of keenest excitement. Hockey, the next event, is a fast, tiring game that needs the cold winds of December and early January to spur on the players. Spalding basketball, always the favorite at Newcomb, is next. It is a fast, thrilling game that requires a clear head and speedy feet. The varsity alumnæ game brings this sport to a stirring climax. Baseball follows close behind with Gym Night in March, a special attraction. Under the capable supervision of Miss Lucy Richardson and held in the spacious gymnasium, the classes give exhibitions of the work they have done during the year. Miss Florence Smith arranges the pyramids and performance of the upperclassmen. With stunts from all four classes and prizes for the best clown, this is always a gala occasion. The swimming meet in May is the next important event. It is held at night in the beautiful pool, the gift of the late Mr. Ratcliffe Irby, the director to whom both Tulane and Newcomb owe such a debt of gratitude. The meet always arouses the greatest interest. The girls who have attended the classes conducted by Miss Malone or any who have passed the preliminaries are eligible. Since all Juniors are compelled to pass a swimming test, no Newcomb graduate is without a sufficient knowledge of swimming. The old clothes race, the relay race and the diving contest are usually the feature attractions.
NEWCOMB SWIMMING POOL

The rest of the time is devoted to practicing for Field Day, the grand finale of the athletic season. Running, high jumping, throwing the discus are just a few of the events in the competition. The girl with the highest number of points is declared the individual winner and is presented with a silver cup. Off and on during the year, there are hikes up the river and to such places as Packenham Oaks. The all-day hike is held every year on All Saints' Day.

The whole athletic structure is based on the point system. Started in 1922, it has risen steadily in popularity with the faculty and students. A girl is given points for making the teams of the major sports, for attending the coaching periods, for entering tournaments, for apparatus work and for class work. It is purely voluntary but no credit will be given unless a girl signs up for points at the beginning of each semester. The "N" Club, a new organization on the campus, is the outgrowth of the system.

During the half of the Sewanee game, the Homecoming Day for all wearers of the "T," the "N" Club made its first public appearance. No Tulane man wore his letter with more pride than these Newcomb girls who proudly displayed their "N," the symbol of many years of steady, untiring effort. With athletics conducted on the point system, not only are the girls rewarded who make class and varsity teams and who are winners in the tournament, but also those who have conscientiously tried and attended all the practices. When 700 points are earned, a girl is awarded the Newcomb "N" and automatically becomes a member of the Club. With 1,300 points, a sweater is given and with 1,600, a silver "N." The highest athletic honor that can be conferred upon a girl is a bronze and blue blanket, the reward for 2,000 points. A large score may be run up, since attendance at the practices of the major sports, nets a girl 10 points, 35 for making the squad and 50 for varsity, not counting the numerous minor sports throughout the year that come in for their share.

With this brief summary one may see the extent of the supervision and wonderful equipment of the athletic department at Newcomb that makes it such a potent factor in our college life.

H. A. Thomas

We believe in the tenets of abiding truth which is the guiding star of our Order.
We believe in the helping hand which is the bar which binds us in our calling.
We believe in the unity of service to one another which lends to the weary a word
of cheer, to the poor a portion of our share, to the weak a need of pity, to the
stricken a voice of comfort, to the old a memory of youth, and to the wayfarer a help
along to the journey's end.

Our emblem will always be an inspiration to duty, remembering it stands for
excellence in all things, purity of purpose and honesty of method and effort, with
the blessing of an Alma Mater upon each who bears our badge of honor.
May our lives lie among the stars which light the way to the great mystery, and
may we so live that when we reach the end of the road we may find the veil, which
parted leads to the heights of everlasting peace.

The Tulane Young Men’s Christian Association is the only campus organization that is campus-wide in its scope. Membership in the association is open to anyone who declares himself to be in accord with its aims. The program is carried on by the students under the direction of the General Secretary and is designed so as to care for the social, recreational and religious life of the student.

IN REAR APARTMENT

Blunt Instrument Blights
Blower of Sax

Mary Aldrich, alleged saxophone player and dean of Tulane Commercial School, of 34567 Audubon Park Drive, was brutally beaten in his rear apartment, between the hours of 2 o'clock Sunday morning and 3 o'clock Wednesday afternoon, according to reports from Police Chief Raise office last Christmas.

The body of Aldy was found lying across a Duncan Phyfe divian, with two broken legs and green upholstery, with his favorite Conn Tenor-Bass saxophone, 12 carrots gold, inlaid with platinum and three diamonds set in the mouthpiece, when Detective Snippen-snoop entered the wrecked apartment.

Chief Raise, who answered to a telegram delivered by special delivery over the radio, said that the attempt on Dr. Aldrich was done by someone who did not appreciate good music. Raise was also in favor of the execution of Aldrich's assailant. The blow across the middle of the center of Aldy's forehead was due to a crash from a blunt instrument.

Aldrich, after several days investigation on the part of the police, fire and S. P. C. A. society, was rushed to the Hilarity Hospital, where he was treated with fallen arches.

Mrs Aldrich told police that her husband had purchased the saxophone only two months ago, but had been longing for one since his childhood. "I wanted to be popular," murmurred the suffering man through his tightly closed lips. Mrs. Aldrich insisted, however, that she had warned her husband at the time, that he had spent too much money to blow in.

Fingerprints found on an empty whiskey flask near the central corner of the room, led police to think it might be a rum plot, but this theory was abandoned when the prints were found to be that of Detective Snippen-snoop.

Three hundred and fifty Tulane students as well as several good-looking co-eds are being held at police headquarters for questioning concerning the matter.

THE TULANE HULLABALOO

FLASH

WEATHER OR NOT

Local—Increasing fogginess as hangovers begin to clean up. Lots of hot air and wind as classes begin. Further cloudiness as science profs begin to explain theories. Sunshine and clear skies as 4:30 nears. More fogginess as students leave home for another night of whooppee. Tomorrow, ditto.

"A WEEK WITH THE GREEKS"

A farce in one act by

Joe Brunk, alias "Butch"

Dramatis Personae

Ima Deke: A Football Player
Ima Beta: A Singer
Ima Kaya: A Southern Gentleman
Im N. Ateeyo: An Elk
Ima Sigmapi: Bechtel
Ima Phi: (Name Witheld)
Im N. Esaye: Who Is?
Ima Kappasig: A Rustic
Ima Siganoo: A Boulevardier
Ima Sigmaki: A Clerk in Broadway Pharmacy
Ima Pikaya: (Censored)
Ima Phikappasig: Who Isn't?
Ima Delta: Scarface Al Capone
Who sen Otee ya?: A Sigma Epsilon
Ima Deltasigmaphi: Another Football Player
Ima Pikappaphi: Yeah?

Three Israelites, Zeebeetee, Kappanoo and Ima Esaye, A. Spaniard, S. Iota and a Porter, Lamd A. Fie. Oh, yes! We almost forgot A. FRESHMAN.

Scene I

The play opens in a hotel-sized house on Henry Clay Avenue. A rather bewildered freshman is sitting on a couch in a living room big enough to run a race in. He is cornered by Ima Deke.

Ima Deke: Can you play football, basketball or do anything on the track?
A. Freshman: No.
Ima Deke: Can you write for some publication, loaf well or drive a car?
A. Freshman: No.
Ima Deke: Did you like our last party?
A. Freshman: To be frank, I don’t know. I was injured in the mob. Where are the rest of the fraternity?

I. Deke: Over at school correcting the mistake by which the faculty put us last on the scholarship list.

(Exeunt)

SCENE II

Another hotel-sized house on Henry Clay Avenue. Enter Im N. Ateeyo who, hearing freshmen approaching, rushes to door and clasps freshman in arms telling him what a wonderful boy he is (this is their first meeting.)

I. N. Ateeyo: Come, my dear, and let me have your promise that you’ll go A. T. O., for we need good men like you.

A. Freshman: Why?

I. N. A.: Well, you see we get bigger and better every day and believe me, you’ll belong to the biggest fraternity on the campus if we can ever manage to pledge three men per year.

A. Freshman: What’s that noise?

Im N. Ateeyo goes to cellar door and tries lock to make sure the rest of the fraternity can’t escape, but A. Freshman does.

SCENE III

Curtain discloses plot of ground along Audubon Street. Freshman is standing there cornered by Ima Beta, Ima Kaya and Ima Pikappaphi.

Ima Pikappaphi: Come, come with us and be original.

A. Freshman: No. (Exit Pikappaphi.)

Ima K. A.: Come, come with us and be a Southern Gentleman, uphold the traditions of the South’s heroes. Come with us and drink tea. Come with us and you’ll get a good view of Newcomb girls going into the tea room.

Ima Beta: No, come with us and sing. We’ll put you in the Grand Opera. Furthermore none of the forbidden liquid ever comes beyond our threshold. We have an alumnus who owns three Stutzes and you can ride to your heart’s content. We are strong in the West and in the East and even in the South. We were one of the last fraternities established at Tulane and look where we are.

SCENE IV

The scene shifts to State Street. Enter A. Freshman pursued by Ima Phi.

A. Freshman: One at a time now boys.

Ima Phi: Here, don’t go with that other boy, can’t you tell a good fraternity when you see one? Just think of all the great men we have, more than the Betas or the
Dekes. Just evidence the cups we have on our walls, mantels and so forth. What? You say that one man won all those cups? Well, he counts more than any big man another fraternity can boast. And we have the only fraternity house here that was designed for a fraternity house, and such polite boys who revel in tea drinking as their wildest occupation!

SCENE V

Curtain reveals three old Tulanians, Zebeetee, Kappanoo and Ima Essayem, walking frantically to and fro. Enter A. Freshman.

A. Freshman: What's the matter, have you lost something?

All three (in chorus): Yes, yes. Three days ago we were sent dance invitations; two weeks ago we all had houses and now we can't find 'em. It's terrible the way these boys treat their alumni.

Zebeetee: I went to where the Z. B. T. house used to be and a lady poked out her head and said: "To be shure, begorra, there's no fraternity house here."

Kappanoo: I went to where the K. N. house used to be and a man stuck out his head and said: "My good wee mon, there's no fraternity bairnies here."

Ima Essayem: That's nothing. When I went to the old Esayem house a handsome man, and I mean a handsome man, poked out his head. Right then I knew I was in the wrong place.

SCENE VI

Scene is laid in the vicinity of Broadway. Im N. Essaye is out distributing circulars to all passersby. Enter A. Freshman pursued by Ima Kappasig and Ima Sigmaki.

Ima N. Essaye: Step right this way gents and lend an ear. We pledge more every year and every man we pledge gets somewhere. We have the best fraternity magazine ever published and just piles and piles of great men and all sorts of associations to keep us from going to the dogs. Take a circular, it's all free. Learn about the organization of this really great fraternity. (A. Freshman escapes.)

Ima Kappasig: You say you come from Bugtussle, La.? Come with us and feel at home. We furnish straw mattresses to all our pledges. We'll let you milk the cow. All our boys have that attractive Southern drawl and believe me it goes big with the ladies.

Ima Sigmaki: No, come with us and help us move to our new house right back of the old one and right on Broadway. Ice cream and soda all day and every day and Newcomb girls passing in and out all the time. We're very particular about whom we pledge; so don't feel bad if you're the only one there on Pledge Night. And ask anyone in New Orleans that's out of college which fraternity has the best alumni. It's us!

Freshman: I did, and everyone I asked was a Sigma Chi.
Being in the neighborhood of Pine Street, it seems proper that we introduce Pine Street's newest nuisance, Ima Sigmapi. He has moved to Pine Street because it's not paved. The corner of State and Willow Streets was terrible as a location for such a quiet bunch of boys.

Ima Sigmapi: Don't listen to those raucous boys. We have Tulane's best combination on our rolls, Dr. Bechtel plus a second assistant varsity cheer leader. With us you'll learn what it is to have school spirit and at the same time spend your full time at the University without making any involuntary trips home. (Exeunt).

SCENE VII

Scene shifts to St. Charles Avenue and Lowerline Street. On the porch of a corner house stands Ima Sigmanoo gesticulating proudly toward the passing throngs on New Orleans' main thoroughfare. He's doing it for the benefit of A. Freshman.

Ima Sigmanoo: Join Sigmanoo and live on the Avenoo. Travel broadens one, but you don't have to travel if you join us, the whole world passes by our threshold. We guarantee and specialize a home for anyone who wants to stay at Tulane eight or nine years. (Enter Ima Delta).

Ima Delta: Say bo, youse is in de wrong place. Come wid me and see a real swellelegant fraternity. Loin how to be hard-boiled and swing a blackjack.

A. Freshman: Pardon me, I must go to register. (Curtain).

SCENE VIII

Enter Ima Phikappasig, Ima Pikaya and Whosen Otee. They see A. Freshman and become all excited over getting a chance at anyone.

Ima Phikappasig: Don't rush, freshman, any time, any year and any where that you feel like joining a fraternity just tell us your name and address and we'll give you a pledge button. Really we get some awfully nice boys by waiting for desperation to drive them to us. We get the good boys that other fraternities don't notice.

Ima Pikaya: If you like lots of room to work off your animal instincts come with us. There's room after room over at our house with not a single piece of furniture to get in your way. Our batting average is getting better every year. Last year, we had two (2) pledges that someone at Tulane knew.

Whosen Oteea: Versatility is our middle name. In two more years we were two different fraternities and in a little while we may be another, a big national fraternity. Sigma Epsilon teaches its men consistency. Last year we had an Assistant Varsity Cheer Leader and this year he was assistant again. If you can play in the band or sing in the Glee Club here's your environment. Someday someone is going to call us a fraternity, by gum.

374
SCENE IX

Curtain rises on Ima Deltasigmaphi and S. Iota.
Ima D.: Saa-a-y youse, let’s see your profile.

(A. Freshman shows profile). H-m-m, not a big enough mug. And say, youse looks like a daisy, ain’t never been in a fight; look at dat straight nose and dem ears. However, if youse can do sometin’ wid dose hams, we’ll take youse.

A. Freshman: I can’t. (Ima Deltasigmaphi fants, not believing such a man exists).
S. Iota: Ah, senor, Habla Vd, espanol? Si? Son sus parentos castellanos? Si? Then com-a weeth us and eat awayons. We tenemos un chapter a Loyola, ain’t zat elegant? We’re primeros on the scholarship standing list, no es verdad? (Exit Freshman, disgusted).

SCENE X

It is after pledge night. A porter, Lamd A. Fie, is sweeping up the left overs from a big slaughter. (Enter A. Freshman.)

Lamd A. Fie (Timidly): Maybe your honor might come with us, no? We may win the Interfraternity basketball trophy in a year or so. Our runner-up place this fall made other fraternities sit up and take notice.

A. Freshman: What else would? Oh, that I should have come to this! (Dies. Some Arthurians, whatever they are, come and take him to the “Y” hut and pray for his soul. They dig a grave, lower him in, and kick themselves in after him.)

THE END
Jazzed Dictionary for Tulane Students

*automobile*—20th century model of the old parlor sofa. Most important part: clutch.
*spree*—Something done by a man who has fallen behind in his drinking and then tries to make it up; also called "hender," "bat," "looper," et al.
*bootlegger*—A college graduate with lots of friends who call him by his first name and, strangely, consult him about all parties they go on or give.
*Scotch*—(See also wood alcohol, Prohibition, iodine, ether, gasoline, benzine, medicine). A people of the British Isles. A beverage containing about 55 per cent alcohol. Authentic only up to 1917.
*textbooks*—Useless articles carried only for the sake of effect.
*zebra*—Sport model of a jackass.
*co-ed*—Strange two-legged being which has the power of drawing the focus of the eyes of the genus homo sapiens, especially downward.
*degree*—A piece of important looking paper given by the faculty in recognition of escape from all their pitfalls.
*Campus*—Large grass covered area used by student as a short cut to the stadium.
*Flunk*—Used by professors to break the sad news to diligent students who have received a mark of 69.9—also used as a reference in referring to the Chief or a lousy date.
*Phi Beta Kappa*—A man unworlly wise, knows his science and blushes when talking to co-eds. Never drinks.
*Holiday*—Generally happens after an L. S. U. football game, but only after students have yelled themselves hoarse. Well received during the latter part of December and the early part of June.
*Crip*—Usually an economics or history course.
*Exam*—Comes twice a year, twice too often, and mars the daily pleasures of the undergraduate. Employed by Profs to find out who is the person or persons always interrupting his lectures by loud snoring.
*Dormitories*—We refer you to any out-of-town man that hasn’t enough money to sleep in beds.
*Football*—An oval inflated pigskin object, which causes a lot of discussion between twenty-two men during the months of September, October and November. Also a good reason why athletes drop out of college at the end of the first term.
*Coach*—A man very popular with the student body, but does not agree with the faculty as to their scholastic rulings. Never called by his last name.
*Whoopie*—Can’t be defined. Actions speak louder than words.
After sixteen and a half years of exhaustive research, the university authorities have come to the conclusion that Bovaltine is the stuff; yes, Bovaltine. For example, we will take Tulane's most representative student since 1902. "Yes, that's when little Stanislaus Phillips first came to us," says Dean Milkjohn. "He was but a raw youth, but we knew that he had a brilliant future before him. Perhaps aviation, who could tell whether the boy was to walk or fly." We see in picture (1) that Dean Milkjohn was not far from right in this conclusion. At that time, Stanislaus was a sedate youth sticking close to home, but he soon fell into bad ways. In picture (2) we see what the ravages of dissipation have done to little Stanislaus. His marvelous ear development has disappeared, due to ducking his head in the Gumbo bowl, his curly locks have gone the way of Staycomb. Alas! Alas! Even his well rounded face is becoming pinched, but the authorities have nothing to fear. Bovaltine will come to the rescue. In picture (3) he has taken to drinking Cokes and smoking Cubes. The effect of Garbo on the innocent students of this country is readily seen, but he is getting something out of college. After all, he has read Pelbert Blubbard's Book and is now able to talk on any subject, no matter how personal, even evolution. In picture (4) you will readily see that he has mended his ways, although he has taken to ping pong and playing postoffice, he is getting to be a little devil with the ladies. In picture (5) we see the finished product; a steady diet of Bovaltine and Nuxated Cast Iron will lengthen his years. He has just graduated, and at the tender age of sixty-four looks upon the world with a new hope. (Note the bifocals.) "Without a doubt," says the Dean, "he owes it all to Bovaltine—and the School for Sleuths, where he tells bedtime stories to night watchmen."
Peggy Pass the Potatoes' Society Notes on the Jambalalaya's Annual Ball

The Jambalaya was host yesterday evening at the Pythian Hall in connection with the Bull Social Club. Due to the heavy rain, pirogues were used to convey the guests. The ball itself was a beautiful affair, being one of the high-lights of the social season.

The hall was beautifully decorated with water hyacinths and empty beer bottles hanging from the ceiling and glistening in the pale green light, which gave the effect of looking at the world "through rose colored glasses."

The curtain rose to the tune of "Carry Me Back to Old Virginny," presenting to view Her Majesty Henrietta Broad, supported by seven pages. With difficulty the captain blew his whistle and all noise ceased in the arena except for the rattle of a few bottles which had been carefully suspended from the wall by the electrician.

The captain chose the following for his court: Miss Edwina Jahnecke, Miss Mary Walsh, Miss Lizzie Ford, Miss Myrtle Mangum, Miss Peggy Yokum and Miss Charlie Rucker. Her Majesty, Bull, was lovely in a plain wine vat. Miss Edwina Jahnecke dressed in a thin dress of fog looked simply stunning, while Miss Myrtle Mangum, concealing a thought, was also particularly attractive wearing a rhinestone beaded bag trimmed with dew drops.

Miss Mary Walsh wore a Jantzen bathing suit, her golden locks in striking contrast to the brilliant blue haze of cigarette smoke and stale gin. Miss Lizzie Ford was lovely in a pair of pink garters, trimmed with lace. Miss Peggy Yokum was gorgeously clad in a gown of gooper-feathers with an ostrich plume in each hand.

The Ball at one time was interrupted by a slight riot in the gallery, the Phi Delta Theta brothers were at it again. Miss Charlie Rucker, counting the Phis (Flies) on the wall, while shaking hands with somebody in the balcony was clouted on the chin with one of the unhung beer bottles, which happened to be handy, and took the long count.

The ball would have lasted indefinitely had not the police interfered. The fracas ended, leaving nothing but a few bodies suspended from the Pass-Out Boxes. Those noticed in this connection were Bill Hagerty, Ford Seeuws, Charlie Henriques, Buster Harper, Junior Waldo, Norton Wisdom, Ike Armstrong, Charlie Ox, Joe Brunk, Bill Gladney, Billy Bell, Jack Pizzano, Olive Provosty, Miss Barry, Miss Crawford, Ted Cox, C. B. Brewster, Bernie Bierman, Al Holleman and Judge Lamprecht.
AN INTERVIEW WITH THE DEAN

I've been around visiting a lot since I came to Tulane. The other day I received a little letter in a brown envelope (really it was the most original invitation), which asked me politely, but firmly to visit the Dean. The bell clanged and I rushed out bubbling over with anticipation. I entered his ante-room and was greeted by a polite young lady who let me in the gate (there was a fence) and ushered me into the Dean's private boudoir. All around the room were objects devoted to his life's works. When I entered he almost leaped out of his chair with glee and chortling with joy he offered me a seat. While he poured over pages and pages of records, I noticed his alluring dress. He was attired in an alluring vermilion negligee flounced with cerise papier mache and he had a delightful odor like that around violets in springtime. From a long jade cigarette holder protruded a Murad and wreaths of blue smoke coiled upward from it.

Then he looked up and with the politest of phrases asked me to resign from the university. He was so charming and courteous that I just couldn't refuse him, and so I said: "Sure, old pal, anything to oblige," and I walked out proud of my service to humanity.

**THE BATTLE TO THE DEATH**

The air was thick with smoke. Under blinding lights two brave men were fighting life's greatest battle. Beyond, in the shadows, huddled crowds of people, breathing heavily, cheering on their hero, shouting the name of the old Alma Mater. Tears came to the eyes of the fighter in green. Tulane should never suffer defeat as long as he could move hand or foot. Now beads of sweat stood on his pale brow and his legs quaked under him. But his opponent was weakening, too. If he could just last another minute. He thought of his mother and father at home listening to the struggle over the radio, because they couldn't stand the excitement of the actuality. He mustn't disappoint them. No, he must raise high the name of old Tulane and win this ping-pong game.
She: "It's very good of you to ask me to dance."
He: "Don't mention it, this is a charity ball."

ANNOUNCEMENT

Dr. Bull Broad announces his new theory on Alternating Current Generators.

He claims that the impedance of the entire circuit is obtained by adding the real quantities to fake quantities, with the result that

\[ Z = 10 - j \left( 11 + 2 \right) \]

It is claimed that this new theory will revolutionize the Carnival Spirit in New Orleans, also, it will allow the intake manifold to function as usual.

Act I

Maid (dusting room): Well, I'm glad to have these girls. We make enough in four days to live off for the rest of the year. Such a shame Miss Rose had to leave. They say the faculty called her home to help run the college. Poor dear Miss Jo is in another Jamb. She doesn't look like such a sticky girl, either. Miss Roberts wrote a poem about me this morning. She means to like country girls, but I can't see why she does. It looks like she would write about some of the lilies of the field, because goodness knows, I ain't beautiful. Now, I must go look after that unfortunate Miss Fine. You know, they have to keep her locked up now. She is raving crazy over May Day.

The Act

Protagonist: What ho, Kitty? Whither goest athletic garb? Bear my greetings to our sisters on the field. (Knocking is heard at portals.)

Protagonist: To friend to those who wore the badge of B.A. Ho there ary such within?

Pro: Yes, in midst a multitude. You will always find us here. Enter and lend thy presence to our band.

Antagonist (entering majestically): Hail friends, and who may ye be?

Protagonist (sotto voce): We are a group with laurelly newly won. We manage the dramatics of this college, and when we have a moment free from arduous duties, we withdraw to this charming spot for refreshing communion together. Our discussions are always most worthwhile. This year we are much intrigued with the science of Biology, since the doctrine of Evolution has been proved anew by one coming up from the Apes.

Time: It doesn't matter.
Cast: Some girls.

Act I.
One girl: Isn't it thrilling to have a member on Executive?
Another: Yes, and maybe we can get more next year—it just takes time and pep.
Ditto: If we just keep on showing college spirit, we'll get there.
Chorus: Good! Here comes Annette!
Annette: Come on girls. How about some good clean fun?
CURTAIN.

ALPHA DELTA PI

Setting: Broadway Pharmacy.
Time: Any day at 5:30.
Cast: Peppy girls, a profusion of gay collegians.

Tolley (buying a 16-ounce bottle of Jade perfume): Have you met all our darling freshmen?
Masc. Collegians (in chorus): I'll say we have!
Enter the Sweetheart of Sigma Pi: Hello everybody—I'll see you all at the dance tonight. Must rush off to my dinner date.
Katherine (dashing in): Why weren't you all at the try-out for the Carnot debate? We must start going out for activities.
Raby-faced Pledge: We'd rather just go out.
He: "Gee, but it's cold tonight!"
She: "Yes, would you like to dance?"
He: "No, Miss Mitchell, I can't dance."

Good-bye! Farewell! I am going to Paris where women are weak and the wine is strong; where children are common and men are rare. Facts I'll shun and inaccuracy adore; classes I'll skip and co-eds never miss. To h—with the birds who want to know if their pictures are in the Jamb, or, "this copy is wrong." To the land of passion and Vie Parisienne I go. Good-bye, good-bye.

Law Worries

The law on this is settled well
   And though we think all law is hell,
Just ask Professor Fred Beutel,
   Who quotes profusely N. I. L.

If Weinstein, Kleinfeldt, Goodman, too,
   Can't pester one to death;
Each talks until his face is blue
   And has to gasp for breath.

Gesticulating all the while
   The law of which they're leery
As Beutel tries to hide a smile
   And says—As to that—Sed Quaere.

BRIDGING THE MISSISSIPPI

Travelers on the Old Spanish Trail and Jefferson Highway, Bisso-served at Westwego and Walnut Street, and those who use the river ferries at Jackson Avenue, Louisiana Avenue, Kenner and Luling, never miss a bridge over the river, for traffic flows smoothly and freely, with hardly a pause.

The reason is prompt and efficient service—double service, with a boat en route as the boat pulls out. Charges are extremely nominal, thirty cents for the average automobile.

A handsome, new, larger ferry is now completed for use at Kenner. Ten-minute service at Kenner and Walnut Street.

All steel equipment.

The shortest routes east and west via the highways.

There is no ferry problem on Bisso-served routes. Traffic is constant.

CO-OPERATION AND SERVICE

Ellis F. Robbert, Manager
We believe that the efforts of the hundreds of employees of this Company to render a street railway, gas and electric service second to none elsewhere in this country, has resulted in the above emblem becoming truly a symbol of service.

But every day new problems of operation arise as conditions change in a great metropolitan community. It is not enough that the above emblem be now a symbol of service. Millions of dollars must and will be expended to keep it so; and hundreds of employees will continue on, imbued with a true spirit of civic trust, adopting new methods to meet changing conditions so that the above emblem may continue to be truly a symbol of service.
