The year 1947-48 at Tulane was just about like all the rest. It started uneventfully enough with a record enrollment of over 7000 in all branches of the University. The influx of veterans to the campus went on unabated, and though slightly faded and ragged around the cuffs, khaki was still high style for the male population.

The housing units which sprouted up last year were still overflowing, and diapers made up a large percentage of all laundry done for the residents. The new History Building was completed and put to use, and another of uncertain purpose was begun. A country club-like dormitory for the athletes was under construction in center field on the baseball diamond.

By the time that the miles of registration blanks had been dispersed to their final resting places, the initial excitement of registration had worn off. Everyone had recovered from the rigors of the book line, and, with exams still a comfortable fifteen weeks off, college life began with a vengeance.

The flurry of excitement caused by the unexpected and dramatic victory over Alabama in the opening game of the football season soon died out, only to be revived by the 6-6 tie with L. S. U. in the season’s closing contest. Classes, sandwiched in between Saturday nights, had been progressing painlessly enough and resolutions to get caught up during the Christmas holidays were being heard on all sides. Everyone lived up to them, too, along about the third of January.

Mid-semester exams came as a blow to most. Dating became a thing of the past, and midnight oil was reported up ten points on the market. Blue jeans made themselves only too apparent on the Newcomb campus, and among the boys, beards and bloodshot eyes were all the rage.
Then it was all over. The heat was off for another four months, and fancies were turning away from books. Second semester registration cramped the style of the student body only momentarily.

A brilliant basketball team won the attention of the nation with victories in the Sugar Bowl and Delta Bowl. When the curtain finally fell on the season, only three defeats marred the record of the Greenies, who had taken the measure of twenty-three opponents, including some of the best teams in the country.

The main topic of conversation on the campus suddenly switched from basketball to international affairs with President Truman's announcement of the coming draft. A great deal of consternation was caused by the fact that nobody's uniforms fit any longer.

Glendy Burke brought Tulane into the public eye with its Centen-
The Hullabaloo, under the guidance of Dennis Bryant was again awarded All-American honors. There was a little noise over the policies of an obscure yearbook on the campus.

This year probably marked the end of a unique period in educational history. The first big group of veterans is graduating this year, and their influx into college is rapidly falling off. They'll still be here for the next few years, but in ever decreasing numbers. Next year, the typical freshman will be downy cheeked as in days of yore.

College life is going back to normal. It'll never be the same.

RUFUS C. HARRIS
PRESIDENT’S MESSAGE

The year 1947-48 at Tulane has found us concerned with unsolved problems, conflicting opinions, and uncontrolled forces in the political and moral spheres of the world. Military superiority did not bring victory. If the purpose of the war was ideological, we have not won it. We have only changed our weapons from force to persuasion. Who knows how to use this new weapon?

The purpose of higher education is training in the art of thinking. Mastery of that art will develop the mind for intentional and intelligent use, not for unwitting and unwilling manipulation. Freedom from prejudice, freedom from ignorance, freedom from complacency depends upon minds disciplined enough to be controllable and therefore really free.

For the men and women of Tulane and Newcomb, and for the wife of the student veteran, that freedom is a precious thing. They have fought for it in war, they have striven for it in peace, that they may insure for themselves and their descendants a future worthy of their illustrious past. As this yearbook brings back memories of these extraordinary campus days, I hope it will renew and nourish your determination to live intelligently and courageously, in the fear of God and in the light of truth.

The membership of The Tulane Alumni Association includes all graduates and former students of all colleges of the University. The Student Center Building on the Tulane Campus houses the General Alumni Offices, the Alumni Records Office, and the TULANIAN, quarterly publication of The Association, which is sent free of charge to all Alumni.

A representative of The Alumni Association welcomes the graduating classes at each Commencement. Active Tulane Alumni Clubs are in existence throughout the United States.

Homecoming is celebrated each year, and Class Reunions are held. On May 10th, anniversary of the birth date of Paul Tulane, Alumni honor their benefactor’s memory at Princeton, New Jersey.

The Tulane Alumni Fund, now in its second year, has grown to be of real value to the University. A well organized Class Agent system has been an effective instrument in Alumni affairs.

The Student Council of the university is the highest governing body of the Associated Students of Tulane University. It is composed of the presidents of each of the eight colleges of the university, and the officers of the council itself are chosen by an electoral college which is made up of members appointed by their respective colleges.

The principal function of the Student Council is that of interpreting and executing the constitution of the association. The Council also exercises general supervision over all expenditures from the Student Fund, as well as supervising the entire student activities program.

During this school year, the Council was confronted with many problems which it endeavored to solve in the interests of the student body as a whole. The Council published the first Tulane Student Directory. At the beginning of the year, the Council conducted an orientation program designed to familiarize all students with the physical facilities of the University.
The membership of the Publication Board consists of the editors and business managers of the two publications, the president of the University Student Council, an elected member of the Student Council, and two senior class presidents, choose from any of the colleges by vote of the University Student Council.

Besides being responsible for the selection of the editors and business managers, the board settles any disputes with or between staffs concerning questions of policy. Selection of staffs, however, is left to the discretion of the individual, Editorial and business heads.

Chairman of the board is the president of the University Student Council. The advisers are Miss Beatrice M. Field and Dean George E. Simmons.

Honor Board has jurisdiction over the conduct of the students of Newcomb College, and maintains the school standards of personal honor, loyalty and integrity. Each student, upon entrance into the College, signs a pledge in an impressive ceremony before the Board, promising to abide by the regulations of the Newcomb Honor System.

Any infringements or violations of the pledge are referred to the Board for judgment, each student being on her honor to report herself as well as any other student involved.

The Honor Board supervises all general student body elections, from keeping the polls to counting the votes.

The Newcomb Dormitory Council, which is composed of representatives from all of the campus houses, provides the resident government for students of Newcomb College living in the dormitories. It carries out the rules and regulations, tries offenders, and serves with executive, judicial and legislative powers.

The Council also provides for entertainments by and for its members, working with all dormitory students for an efficient system of self-government in matters relating to the conduct of its members, both as individuals and as a social group. It attempts in these ways to obtain a well-rounded dormitory life.

The Newcomb Athletic Council is the executive body of the Athletic Association, which is composed of any student who participates in activities offered by the gym. The Council is composed of: a representative from each class, chairmen of the three big intramural sports, presidents of individual athletic clubs, and the leaders of the four leagues—Dixon, Gibson, Howard, and Norman. Everyone in the Athletic Association falls into one of these four categories, as a method of competition.

The results of intramural competition may be either League or individual victories. Trophies are awarded the winning Leagues, and gold charms go to the winners of individual tournaments. Awards for the accumulation of individual points, which are given for all athletic participation, are, in order: a felt "N" letter, a silver "N" pin, and a blazer jacket with the seal of Newcomb. These awards are given for enthusiasm and participation, not merely outstanding skill in sports.
Recipe for Jambalaya: Take one office. Add three tables, one addressograph, two cabinets, nine filing cases, 150 1946 Jams, 200 assorted yearbooks, one hatrack, two slightly aged typewriters, and chairs to taste. Mix well and add a sprinkling of assorted characters. Boil for six months, adding ink and copy paper at regular intervals. Serves 3500.

The Business Staff as usual received, or is still trying to receive, the gravy resulting from the efforts of the Editorial Staff. But then where would they be without the money brought in by the financial engineers of the book? A new idea instituted is the use of the campus personalities as models in the ad section.

BILL LONG
When Editor Dennis Bryant surveyed his meager newspaper staff last September, he concluded that Editorial Order No. 1 must read: "Inter-staff dating will not be tolerated." For marriage had ripped the staff from stem to stern. Gone were Associate Editors Bob Barnes and Wilma Knight by way of the altar. Gone was Society Editor Lorraine Freeman with trackman Hugh Liles, to the tune of the wedding march.

Untouched by love's demands were: Phil Harsham, who filled the associate editor's slot; Rosemary Carnes, who moved into the society editor's shoes; Columnist Vic Gold was rumored "steady" with Dale Solomon, the new Newcomb editor. Single Henry Threefoot took over sports, along with married Al Perry and suspected John Gleason.

New faces made to realize the dateless responsibilities of being a Hullabalooite were: McVey Ward, Edgar Ashworth, Bob Guggenheimer, News Ed. Bill Jenkins, feature writers Diane Farrell, Herman Kohlman, Critic Pat Cronin, and Assistant Business Manager Larry Hennessey.

Even Business Manager Jack Schwemmann fell under close scrutiny as well as Feature Ed Harry Heintzen. Heintzen remained a loyal newspaperman throughout, scorning entangling alliances, but Jack broke the shackles near the close of the Bryant term by marriage to Nanette Taylor.

A few days before his term as editor closed, Bryant made a startling announcement: His engagement to Newcombite Rene Herbert.

A careful screening revealed Harsham as the least likely to be hooked. "I live in the veterans barracks, and, as such, am not a likely prospect. Besides, I don't have a car," he said, clinching his eligibility.

With car-less Harsham came still single, still around McVey Ward and Harry Heintzen as associate editors. Unfortunately, Ward had gone the way of most flesh by planning to marry Betty Holland in September.

With the New Order, some changes and additions were made. Dale Solomon became copy editor and Diane Farrell took over as feature editor. Edgar Ashworth was promoted to assistant copy editor. Continuing in the same jobs were Bill Jenkins as news editor, Henry Threefoot as sports editor, Rosemary Carnes as society editor, Vic Gold as columnist and Jim Bitch as cartoonist.

Singer Larry Hennessey, as business manager, dropped his vocal chords to look after the Hullabaloo purse strings. With him, hands cupped under the money bags, was Assistant Business Manager Tom McBride. Harlan Sindell got a weekly mouthful of Uncle Sam's postage paste as circulation manager.

Omicron Delta Kappa is a national collegiate organization which selects for membership students who have excelled in more than one of the following fields of university activity: scholarship, athletics, social and religious affairs, publications, speech, music, and dramatic arts. Members are elected from the faculty and administration on the basis of having displayed unselfish leadership in the interest of the university. The two primary bases for election are character and leadership. ODK is the only national collegiate organization which recognizes excellence in extracurricular pursuits; it is also the only national collegiate organization which embraces both student and faculty as active members.

The national organization was founded at Washington and Lee University in 1914. The Alpha Zeta Circle at Tulane was established in 1930.

Kappa Delta Phi was founded at Tulane in 1904 as an honorary organization for the promotion of school spirit. Each year it selects from the junior and senior classes and from graduate school, men who have been conspicuous for school spirit and for distinguished and unselfish loyalty and endeavor during their university careers. One faculty member is recognized for outstanding service.

Kappa Delta Phi has a two-fold purpose. It confers membership upon those singularly effective and successful in promoting school spirit and advancing university enterprise, and it binds together these men into an organization dedicated to further endeavor in behalf of Tulane.

The Tau Beta Pi Association was founded at Lehigh University in 1885 by Edward Higgenson Williams, Jr. It is dedicated to those who have conferred honor upon their Alma Mater by distinguished scholarship and exemplary character as undergraduates in engineering, or by their attainments as alumni in the field of engineering. Its aim is to foster a spirit of liberal culture in the engineering colleges of America. New members are selected from the upper scholarship brackets of the College of Engineering by vote of the chapter.

Tau Beta Pi was founded at Tulane in 1936.

The society is composed of regular members consisting of medical men and women who as undergraduates have given promise of becoming leaders in their professions, of honorary members consisting of physicians who have attained distinction in any worthy line of human endeavor, and of persons, whether physicians or not, who have gained unusual recognition in fields related to medicine. The most prominent requisite for membership is high scholarship in a broad sense, along with evidence of strength of character, individuality, originality and moral character.

The aims of the society are: (1) the promotion of scholarship and research in medical schools, the encouragement of a high standard of character and conduct among medical students and graduates, and the recognition of high attainment in medical science of practice and related fields; and (2) the creation of a fund to aid deserving students in the School of Medicine of the Tulane University of Louisiana.

Alpha Chi Sigma is a professional chemical fraternity open to qualified men in chemistry and allied fields. The Alpha Tau Chapter was organized at Tulane in the spring of 1928. The three objects of the fraternity are:
1. To bind its members with a tie of true and lasting friendship.
2. To strive for the advancement of Chemistry both as a science and a profession.
3. To aid its members by every honorable means in the attainment of their ambitions as chemists throughout their lives.

The Alpha Tau Chapter sponsors annually a freshman essay contest in Chemistry at Tulane. It also sponsors a safety program and maintains a display case in the Richardson Chemistry Building.

One of the newest organizations of the Tulane-Newcomb campus is the Student Affiliates of the American Chemical Society, which was established here during the summer session of 1945. With Dr. John Scott as its faculty advisor, the group functions to stimulate interest in the more modern advances in chemistry. Members have the opportunity to learn, and to express themselves in the various branches of their chemical interests by the presentation of originally prepared papers, and by informal discussions.
The Owl Club is an organization composed of twenty-four seniors in the School of Medicine elected yearly on the basis of their character, personality, scholastic interest. The purpose of the club is to promote better student-faculty relationships so that both parties may benefit from constructive criticism, in order to maintain and advance scholarship, teaching, and ethics at the Medical school.

In addition, the organization is pledged to several projects, such as gathering information of aid to junior and senior students in the selection of internships, and has taken leadership in sponsoring the Tulane Medical Research Fund, for the promoting and financing of wider research at the School of Medicine.

Founded at Tulane in 1926, Theta Nu, honorary journalism fraternity, strives to further the achievement of good journalism not only on the campus but wherever Tulane copy is printed. It is especially active in the development of undergraduate participation in the Hullabaloo. Back in force after a wartime lapse, Theta Nu will again award the Reporter's Cup to the outstanding Tulane reporter of Tulane news and will continue to promote interest in the annual Dorothy Dix Feature Story Contest. Last year's award was presented to David M. Klock.

Beta Beta Beta is an honorary international biological fraternity which was formed in 1920. The Beta Lambda chapter was installed at Newcomb College in 1933. Beta seeks to encourage scholarly attainment in the scientific field of learning by reserving its membership for those who achieve superior academic records and who indicate special aptitude for the subject of biology. Every month Beta Beta Beta sponsors a noted speaker, who lectures on some biological field.

Phi Delta Phi legal fraternity selects its members on the basis of scholarship and ethics. Its aims are the promotion of legal training and ethics. Projects for White Inn for the year 1947-1948 include a placement service for law graduates and a lending library for law students needing textbooks.
Alpha Sigma Sigma is the senior honorary society. It was founded at Newcomb in 1915 to promote leadership, scholarship, and loyal service to the school. On Alpha Sigma Sigma Day the names of those elected are announced before the Student Body. These members represent the ideals of honor, scholarship, leadership, service, and school spirit for which the organization stands. The members of this organization play a large part in Freshman Orientation and have charge of Freshman Government for the first semester of the school year.

At the end of each year the most outstanding freshmen at Newcomb are selected on the basis of school spirit, leadership, and scholarship to be Assets. Initiation day is a highlight on Newcomb campus. At the chapel service the new members are called from the audience and donkey’s tails are tied on them by the Sophomore Assets. After a song has been composed in honor of the day, the initiates, led by the old members, parade around the campus, concluding the initiation with a luncheon in the recreation room of Dixon Hall.

The following year Assets take an active part in Freshman orientation. The president is on the orientation committee and the members act as Big Sisters to the Freshmen.

The Tulane Chapter of Gargoyle, the national architectural honor society, was established in 1923. Qualifications for membership include high scholastic average and a demonstration of leadership in the profession of architecture. Members are selected from the 3rd, 4th, and 5th year students of the school of Architecture. The active alumni make up the major portion of the membership. The Tulane Chapter sponsors an annual architectural design competition open to members of the sophomore and junior classes of the architectural school.

The Moot Court system in the College of Law is especially designed to train students in the preparation and argument of cases. It is this practical aspect of the practice of law toward which the efforts of the Competition are directed. Technical training in research, brief writing, and oral argument of cases before a court form the foundation of the moot court work.

The present Court is composed of 16 ranking members of the Junior and Senior classes. The work of the Court is to prepare the facts to be argued, sit as justices on the Supreme Court of the State of Louisiana, and to supervise and administer the competition. Since no one jurisdiction is controlling in the Supreme Court of Tulane, the student attorney must weigh the social and economic factors and must concentrate on the functioning of the rule of law.

In the academic year 1947-48 the Moot Court Competition was won by Walter Wedig and Chalin Perez. In accordance with the tradition of the College their names will be engraved on a marble plaque in the College of Law Library.

Lagniappe, the Tulane student dance organization, sponsors undergraduate dances throughout the school year. Something for nothing is the literal translation of their name, and the members live up to it by giving street dances, the Homecoming dance, the Freshman Dance, and a boat ride each year. They also sponsor a "name band" dance each year. This year, Sammy Kaye brought his orchestra to New Orleans to play for the Tulane students.

Gamma Upsilon chapter saw one of its most active years during the 1947-48 session since its beginning six years ago. Activities of this year included selling tickets to The Hurricane Bowl, sponsoring the traditional "Ugly Mug Contest", ushering at the Easter Sunrise Services and spring concert, and planning the program for Paul Tulane Day.

The national fraternity, founded in 1925, at Lafayette College, in Pennsylvania, has as its purpose the assemblage of college men in the fellowship of the Scout Oath and Law, the Development of friendship, and the promotion of service to school and community.
Greenbackers rose to new heights this year in their activities by sponsoring several large parades on the Friday night before football games in downtown New Orleans and one in Houston, Texas, before the Rice game. This was the first time that Tulane students had indulged in such an undertaking since before the war. Freshmen once again wore freshman caps and sat together to make the most effective cheering section in many a long year of listless school spirit. Greenbackers sponsored a Fraternity and Sorority Singfest which was won by Pi Kappa Alpha and Kappa Alpha Theta in an attempt to establish a new tradition on Tulane Campus. The gym was the scene of a Tiger Hunt sponsored by Greenbackers and Coach Cliff Wells received a plaque in recognition of his fiftieth victory for Tulane. All this was accomplished along with the adoption and obtaining of a new design service key for members and a new type jacket.

The Tulane University Spirit Klub is in its second year of functioning on the campus. It was started last year when a group of students felt that there was a need for another school spirit organization.

The KLUB sponsors such things as bonfires and pep rallies, before the game greenie stunts, a campus guide service, and anything else that will benefit the school and the students.

The activities of the year consisted of all activities that took place in the Student Center: bridge, chess, ping pong tournaments and all students stumps.

The Forum, a non-membership organization, holds weekly lecture discussion-meetings on topics of general interest. Meetings which are open to the public, are held informally in the Student Center Lounge on Tuesday or Wednesday nights. A guest speaker first presents his point of view, and the floor is then thrown open for discussion. The Forum thus affords students an opportunity to discuss topics of current interest with authorities in the field. Some of the topics arousing the most lively campus interest this year were: "States Rights and White Supremacy," "Wallace and a Third Party," "The Woman's Place," "Existentialism," and "Academic Freedom—Can Teachers Be Communists?"

Promoting interest in creative dancing of all types, the Newcomb Dance Club has progressed considerably under the enthusiastic direction of Miss Francis Bush. During the year all ballet routines necessary are supplied to campus productions, besides the annual spring recital in which every member participates. This year the recital was held on May 5, 1948. Membership is through try-out.
TULANE UNIVERSITY THEATER

Kiss me, honey

T. U. T. got under way this year with an entirely new set-up. For years our cry has been "We need a theatre," and this year our plea was partially answered by a merger with the New Orleans Little Theatre. T. U. T. gained three directors, two technical directors, and a good stage; and the Little Theatre gained a number of inexperienced, but hard working, student crews. The aim is still for a campus theatre, but until our dream comes true, we can take advantage of the facilities at our disposal.

The nine shows this year were open to students, and two of the shows, "All My Sons" and "Kiss and Tell," were also brought up to the campus. Besides the two shows mentioned the productions of the year included "Golden Boy," "The Philadelphia Story," "Outward Bound," "Arms and the Man," "The Late George Apley," "Medea," and "The Time of Your Life."

Working under Dr. Monroe Lippman, executive director, are: Robert Hyde Wilson and Darrell Ross, associate directors; Ethel Crumb Brett and George W. Hendrickson, technical directors; and Beverly Bruff, executive secretary of T. U. T.

The Campus Nighters were responsible for four productions. The first was to welcome the new students to Newcomb. The second, which took place the night before the L. S. U. game, was to be an original take-off on the song hit, "Civilization," but technical difficulties prohibited this. Instead, a variety show was presented which included an ode by a quartet for the benefit of our upstate rivals:

Down upon the Mississippi,
Stands the olde war skule!
It's an old abandoned out house,
Known as L-S-U!
Third was the Fraternity Skit night worked out in conjunction with the Pan Hellenic Council. The Delta Sigs took first place with an original three act play, a dramatization of that old love feud, "Frankie and Johnnie."

The fourth event of the year was a joint operation with the Radio Club. It was a simulated radio broadcast.
The Choral groups of Tulane and Newcomb offer a varied program to those interested in group singing. They play an important role in the life of the university, participating in many of the official ceremonies, as well as the student productions. There are six organized groups which take part in these activities.

Under the direction of Maynard Klein of the Newcomb School of Music, the finest choral music is presented. Their repertoire varies from the masterpieces to the works of contemporary composers.

The groups perform annually at the Newcomb Memorial Service, the University Baccalaureate Services, and at other events that might require their services. Each of them has appeared on programs of national and city-wide scope.

The Tulane and Newcomb Glee Clubs form the backbone of the choral organizations, the only requirement for membership being an interest in singing.

The A Capella Choir which consists of the most advanced singers of the University, has attained an enviable reputation.

This year the twenty-first presentation in the traditional series of Gilbert and Sullivan operettas took place. Ruddigore was well received. In the spring the Gertrude Stein, Vergil Thompson operetta Mother of Us All was presented for the first time since its premiere.
The Tulane University Band, numbering seventy-four players is composed of men students from all schools of the University. During the football season, the Band performed at all home games and made the trip to Houston for the Rice game. A "Pop" Concert the Friday preceding Homecoming, presented the Band in its first concert appearance of the year. In the spring the band presents its traditional Annual Spring Concert in McAlister Auditorium.

44
One hundred years ago Glendy Burke, a contemporary of Paul Tulane and an outstanding educator, banker, public official and humanitarian, set up a sum for the establishment of a prize in elocution, later known as the Glendy Burke medal. Thirty-two years later, the boys got down to constitutionalizing their activities, and appropriately adopted their fosterer's name, adding "Literary and Debating Society." This was in 1880, four years before the adoption of the present name of the university.

The caliber and success of Tulane's Glendy Burke alumni has been proven. Among them are prominent members of the Tulane Board of Administrators, internationally known doctors and lawyers, law faculty members, one of the few lawyers privileged to practice before the U. S. Supreme Court, a journalist of CBS fame, Louisiana's most prominent contemporary author, a member of Congress, and the president of a midwestern university.

The Glendy Burke Society, proud of its heritage, proud of its illustrious alumni, and proud of its past, has not rested upon its laurels. Glendy Burke members derive their experience from a yearly program which includes a number of intercollegiate debates. Besides regular, formally conducted meetings, the program also includes competition for the George Prize, awarded to the best debater of the year, and the George H. Terriberry Prize for excellence in public speaking. The varsity debaters won the men's championship of the Grand National Debating Tournament in 1946 and 1947. Oxford University of England and West Point were among the universities debated this year.

The purpose of the Art Club is to promote the University art principles throughout the community. An interest in art is the only requisite for membership.
The French Club, one of the newer campus organizations, was reorganized this year. The activity of the group has been the presentation of a series of lectures by noted members of the faculty and the community.

The club was organized by a small group of students who desired to further their interest in the study of French and who wanted to derive pleasure and benefits from their mutual interest.

In the future the group plans to extend its program to include a greater variety of events such as a dramatic program, a banquet, lectures and international activities.

The Math Club endeavors, by presenting student and faculty speakers, to stimulate interest in mathematics and related fields. Topics for the popular talks given at the monthly meetings range from such subjects as "Complex Variables" and "The Mathematical Theory of Games" to subjects with such deceivingly unmathematical titles as "Lion Hunting in Africa."

Organized in 1940 by Dr. William Duren, the Club has continued to function under the able guidance of Dr. J. F. Thomson. Membership is granted any Tulane or Newcomb student who has completed at least an elementary course in Calculus.
After a successful year under the capable leadership of Porter Warren, the German Club will resume its activities in September, 1948 with German films, student skits and lectures on German culture by various speakers. Plans are also being made for a picnic at the end of the year.

La Tertulia is the honorary Spanish Club on the Newcomb campus. It holds meetings once a month at which there is a speaker who is an authority on his subject. This year each meeting is devoted to some cultural phase of Spain or of a Latin-American country. There are four reunions each year to which the whole University, as well as the public, is invited: October 12th, Columbus Day; a Christmas Fiesta; April 14th, Pan-American Day; April 23rd, Día de la Lengua.

During the past year the radio club station W5YU in the physics building has enabled the club’s members to communicate with other amateur stations all over the world. The club was organized to foster amateur radio on the campus and to assist the community by rendering public service. Last September, the station served as the sole link between New Orleans and the outside world during the hurricane. Members of the club build emergency equipment, participate in contests, hear lectures by prominent speakers, and experiment with new equipment.

Founded in 1933, through the stimulus of Gordon Holcomb, Greg Dawson and Bernard Weinstein, the History of Medicine Society is primarily interested in tracing the development and seeking factual information in its field. Basing its selection of members upon interest in the group, scholastic standing, faculty recommendation and group approval, the organization each year selects from the undergraduates those fulfilling these standards. Meetings are held every other Friday night at the Student Center; student members alternating with faculty members in the presentation of papers. One of the major projects of the year is the publishing of a transactions of the papers for permanent reference in the Medical Library.

At an annual banquet in the spring, newly-elected members are presented with membership certificates, officers for the next year are introduced and awards are made. These include the Rudolph Matas award for the best student paper, the I. I. Leman award for the best discussion of the paper and the B. B. Weinstein award for the most outstanding research done by a student member.

Behind shouts of "Erin Go Braugh" and "St. Patrick was an engineer," the Engineers' Technological Atelier presents itself as the engineer's school spirit organization. Founded in 1936, the E. T. A. is an honorary society which reaches into the field of knowledge by sponsoring the forum, which gives the student an opportunity for research on technical papers, and into the field of entertainment by sponsoring such activities as the Engineer's smoker and the engineers day fete at the Auburn Game.
Another of the several engineering societies whose aim it is to foster one of the branches within that field is the Tulane Student chapter of the American Institute of Chemical Engineers, established on the campus in 1938. Membership is open to all interested in the advancement of the profession. Lectures by prominent chemical engineers, papers prepared by the students, discussions led by faculty members, and motion pictures from the foundation for the group's monthly meetings. Supplementing the encouragement of student interest in the field, it further creates a means of contact between the undergraduate and the practicing engineer.

Membership in the Tulane Student Branch of the American Institute of Electrical Engineers is open to all students of electrical engineering of sophomore standing or higher. Founded here in 1936, the group strives to advance knowledge of theory and practice by the presentation of student papers and by contact with the faculty and with practicing engineers. Although primarily technical in nature, the activities of the organization are not confined to professional ones. During the past year, its members have enjoyed social gatherings such as dances, picnics, and ball games.
Founded in 1933, the student chapter of the American Society of Civil Engineers at Tulane has as its ultimate goal to bridge the gap for the student engineer between his college education and the existing conditions in the practical field. This is accomplished by monthly field trips to local construction jobs under the guidance of a company representative who is in a position to furnish full information covering the operation from the drafting board to completed construction. Hand in hand with this are the guest speakers at the monthly meetings who, being successful authorities in their field, are able to furnish a wealth of practical information to the students. With these, and a few social events to further friendship, the chapter is forever striving to aid the students of the school of civil engineering.

At Tulane, the activities of the ASME follow the trend of similar engineering societies, with technical papers, lectures, discussions, field trips, annual conventions, and social gatherings by no means being neglected. Awards given to the most outstanding member and best student speaker play a part in the group's competitive program.

Officers serving the group during the past year were: Thomas E. Perkins, president; John H. Williams, vice-president; Robert L. Pons, secretary; Carl R. von Meysenbug, treasurer.

The Tulane Architectural Society, one of the oldest organizations in the College of Engineering, was founded in 1913. This year the Society has well served its purpose to its members, the school, and the architectural profession by promoting fellowship among architectural students and good will between the architectural school and the other engineering schools.

With membership open to all students enrolled in the School of Architecture, this organization is essentially for the good of the School of Architecture and its students.
This year marked the 75th anniversary of the National Student Y.W.C.A. For 75 years the Young Women's Christian Association has been shedding its guiding light on women students everywhere and illuminating their path throughout college and into the future, thus helping them to build the highest standards of true womanhood. This 75th birthday was celebrated on the Newcomb campus with an anniversary tea which was attended by the entire faculty and student body.

The Y.W.C.A. was established at Newcomb in 1901. Meetings are held twice monthly for open discussions, talks by outstanding personalities, and debates. This year, a series of personality talks, proved very successful, and an outstanding feature of the year was the showing of a series of motion picture films acquainting the members with different countries. The main project of the year has been a campaign to increase morning chapel attendance at Newcomb—it seems that the college will soon have need of that new chapel building promised to us.

Y traditions are the annual Christmas and Easter parties for a group of children from a local orphanage, the Christmas tree placed in the main hall of the Administration Building, and the Senior Baby Contest. With the Y.M.C.A. of Tulane, it annually conducts the Easter Sunrise Service, held in the quadrangle of the Newcomb campus. The Y takes an active part in freshman orientation, presenting a program of well-rounded events to aid the freshmen in becoming acquainted with the activities of the college.

The Canterbury club serves the mission of Christianity in higher education by fostering among university students a better understanding of the faith and practice of the Episcopal Church and loyalty to its corporate life.

Part of the program of the Canterbury Club includes the observance of the Lenten season with special discussions led by prominent clergy in the church, participation in the diocesan convention of Canterbury Clubs.

Pending construction of the Francis Lister Hawks Student Center, the weekly Wednesday morning communications and the Thursday evening discussion programs are being held in the temporary Episcopal Student Center, 7070 Zimple St, near Audubon.

The purpose of the Christian Science Organization at the Tulane University of Louisiana are to unite students in Christian fellowship, and to welcome Christian Science textbooks: the Bible and "Science and Health with Key to the Scriptures" by Mary Baker Eddy, the discoverer and founder of Christian Science.

This organization was formed in December 1943, and is authorized by the Manual of The Mother Church. The First Church of Christ, Scientist, in Boston, Massachusetts. Regular weekly testimonial meetings are held on the campus, and each year the Organization sponsors a lecture by an authorized member of The Board of Lectureship of The Mother Church. Students and faculty members are welcome at the meetings and lectures.

The Alpha Upsilon Chapter of Gamma Delta was established at Tulane in 1942, and has since become one of the prominent religious groups on the campus. The national organization was founded in 1934 in Chicago by representatives from 20 midwestern universities.

The purpose of the group is to encourage and maintain Lutheran fellowship and establish fraternal relations with other Lutheran organizations. Advisor to the campus chapter is the Reverend Marvin Lehnhardt.
The Hillel Counselorship was founded at Tulane University in March, 1967. Its purpose is to provide information on current Jewish problems and to give to Jewish students at Tulane and Newman a full religious life while at school. Although founded on this campus only last year, the group has already made great strides and has a full program planned.

This year the Tulane Newman Club sponsored a program for the 2,000 Catholic students at Tulane which included one philosophy and two religious classes each week, two "Days of Recollection," daily rosary, weekly mass and communion, and numerous lectures and forums. Other highlights of the year included the annual Newman Club Night, a Christmas toy drive for orphans, caroling party, Twelfth-Night party, Mardi Gras truckride, and May Formal.

This program followed the purposes of the Newman Club, which is to foster the spiritual, intellectual and social interests of all Catholic students, to join them in a common union and assist the University and its students whenever possible.

The Wesley Foundation is an organization primarily for Methodist students but students of all faiths are invited. It holds a weekly meeting each Thursday in the choir room of Union Hall at 7 p.m. The programs consist of a period of worship, forum discussions on subjects pertinent to student life and outside speakers on various subjects. Many recreational features are held which include parties, hayrides, picnics, and teas. This organization also carries on community projects as a service to others and participates in the World Service Program of the Methodist Church of America.

The Westminster Fellowship functions on the Tulane-Newcomb campus to give spiritual guidance and religious instruction to Presbyterian students, and to provide a channel for Christian recreation. The weekly meetings are centered around addresses by noted authorities on the church, world affairs, and a variety of topics related to the church. Service to the community as well as to the church, is stressed, and all Presbyterian students are urged to join.

ANNUAL REPORT TO THE CAMPUS FORUM

The Westminster Fellowship was organized in 1939 by a group of students from the Presbyterian church in New Orleans. The purpose of the Fellowship is to give spiritual guidance and religious instruction to Presbyterian students, and to provide a channel for Christian recreation. The Fellowship meets weekly in the choir room of Union Hall at 7 p.m. The programs consist of a period of worship, forum discussions on subjects pertinent to student life, and outside speakers on various subjects. Many recreational features are held which include parties, hayrides, picnics, and teas. The Fellowship also carries on community projects as a service to others and participates in the World Service Program of the Presbyterian Church, U.S.A.

The Fellowship has grown in size and membership over the years, and has become an important part of the Presbyterian community on the campus. Annual reports are presented to the Campus Forum, and the Fellowship is always ready to welcome new members who are interested in spiritual growth and Christian service.

A.D. 1980
The past year has been quite a busy one for the "Middies" of the NROTC. Aside from the regular classes in naval organization, marlinspike seamanship, navigation, and naval justice, the "Rotcees" organized a baseball team that took on all challengers. The Taffrail Club, social organization for the Navy, gave several fine parties, one of which was a "dress blues" formal given at the N. O. airport. The "Middies" exhibited their marksmanship on the rifle range by meeting and beating some of the best teams in the country. One activity not enjoyed so much though was the weekly vaccination, which all boys taking the summer cruise had to go through. Then there was checking out in signalling procedure. A note of thanks to Chief Wilson for being so patient with the "cow's tails."

Platoon drill competition and manual of arms competition was held at the end of the year. The second platoon was adjudged best of the three, and Jack Jackson copped the manual of arms award. Yes, it was quite a busy year for the "Rotcees."

THE TWO CRUISES

Last summer the U. S. Navy sponsored two eight-week guided tours for NROTC men.

One group of the midshipmen were assigned to the Carrier Randolph. In between aviation classes and flights to and from the Carrier, the middies saw three days of London, the shore of Scotland, the North Sea and some of the hangouts of Goteborg, Sweden.

Meanwhile, on board the heavy cruisers Albany and Oregon City, another bunch of carefree midshipmen were conscientiously holystoning the decks. In between times, they visited Panama, Trinidad, Cuba, Porto Rico and Bermuda.

JONNIE GET YOUR GUN
All sports being considered, it was a fair year at Tulane. Coach Pare's netmen distinguished themselves by making a clean sweep of things in the SEC tourney. Tuero and company played beautiful tennis, but poor hosts to their friends from the conference.

As this book goes to press two basketball seasons have passed since the last Jamb. In those two seasons Cliff Wells has made his name a byword to all Tulane fans. In reality he has introduced basketball to Tulane for the first time. About the only thing the hoopsters haven't done in these two seasons is wrest the SEC championship from Kentucky, but judging from past performances, that ultimate victory is inevitable.

Coach Simons and his diamond stars turned up with an enviable record of
17 for us, and three for them. Outstanding among the victories was the 3 out of 4 against L. S. U.

Our trackmen were erratic this year. We had individual stars, but it took L. S. U. in a dual meet to make team stars. The combined talents brought about our first track victory over L. S. U. in sixteen years. Hopes were high, but a combination of circumstances brought about a weak showing at the conference meet.

Mr. Frnka and friends had a more or less dismal time of it. What proved to be false optimism was everywhere prevalent after the Alabama game, but when we hit our mid season stride, the awful truth could be seen. Football like everything else, however, had its redeeming moments. We did tie L. S. U.
TULANE-ALABAMA

Alabama's Crimson Tide rolled into New Orleans as the favorite in the Southeastern Conference football championship race, but after Tulane's famous 53 seconds, Bama was busted. Never before in Tulane history had fans seen so much football in so little time. The kick-off after the Tide's first score went to Price, he got it under control three yards behind his own goal, and proceeded to turn in the longest run seen here since Bobby Kellogg ran 106 yards. Heider made his kick. And things continued to happen fast. Olsen recovered an Alabama fumble, and on the next play Benny Ellender sent a long pass into the hands of Prats, who caught it on the five, and lunged across for our second score. Heider made his kick. It was just a couple of minutes after the third period opened that Prats grabbed one of Harry Gilmer's passes at dead center on the 50-yard line and raced for a touchdown. Heider made his kick. Bama came back strong. Never for a moment did they give up, but they were beaten. Heider's three points proved the deciding margin. As the fans left the Stadium, there was plenty of speculation, but one thing was certain, Tulane had it this year.

TULANE-GEORGIA TECH

Going into the Georgia Tech we were still the underdogs, but even the pessimists had hope. Tech came to town with a well polished machine, and they used it. Displaying a fine passing attack that accounted for two of their three touchdowns the Yellowjackets proved too much for the Greenies. The Techmen were light, fast, tricky, but more important, they were experienced. Their strong defense put a crimp in our offensive and but for one stage in the fourth quarter when the Greenies got to the 7 yard line only to lose the ball on downs, the Techmen were secure. Price, Van Meter and Ellender figured prominently in this drive, but our best wasn't good enough, and Tech took over on their seven. We

OK, You see 'em, so what.
were alert recovering fumbles, we fought hard, we held them scoreless during the last half, but as the 50 thousand fans turned homeward the questions like, "Why does he substitute so much?", started, and comments like . . . "If he'd just let them alone, they'd do a helluva lot better", could be heard.

TULANE-RICE

The Green Wave went over to Houston the second week of October to meet the Rice owls. Unfortunately, they met them. It was just a case of too much Rice, and not enough Tulane. Rice's fast-stepping backs broke through the Greenie line often enough to set up four of the touchdown plays, and a long heave was good for the other. Tulane never was able to make a definite threat. Eddie Price and Cliff Van Meter got away for some runs that brought a good delegation from New Orleans to its feet, but the stout Owl line, for the most part messed up Tulane's offensive on the ground, and the Owl backs proved alert against the Wave's passes. The Greenies missed Finley's kicking. Spirits were down when the guys came home, but next week would be homecoming, and maybe that would turn the tide.
TULANE-OLE MISS

Homecoming perhaps is inspirational, but it would have taken more than inspiration to counteract Ole Miss's Conerly to Poole combination. Trailing by 13 points at halftime, the Greenies came to life in the third quarter, scoring two touchdowns with Don Fortier's long passes paving the way, but this only seemed to inspire the Rebels who hit back with Conerly's passes and drew away again. The first Wave touchdown came when Keeton was in at quarterback. A long pass from Fortier to Waller put the ball on the Rebel's two yard line, and shortly after, with Ellender back in, he threw a lateral to Fortier who went over for the score. It was Fortier again, in the same period, who passed to Heider on the Rebs 28 yard line. Keeton ran it to the nine, and two plays later Price took a lateral from Keeton and went over for another touchdown. Heider kicked both goals. Home-coming was fun, Betty Gray made a good-looking Queen, but that night at the dance, the jokers were already beginning to say... "It'll be great in 48".

TULANE-AUBURN

There was a change in our lineup before the Auburn game, and it appeared to be what we needed. The Wave's revamped lineup made an ambitious Auburn team look impotent and helpless. The
Greenies rolled up a score of 40-0 against the Plainsmen. After a bit more than five minutes of play, Ed Price ran 32 yards for Tulane's first touchdown and a costly fumble stopped a Wave drive that seemed headed for another score in that first period.

The second period was scoreless, but the Wave came back to score a pair in the third and fourth periods each. Tulane completely outplayed Auburn at every angle excepting punting. The Greenies blocked better than they had blocked all season, rushed with more vim and ran off deceptive plays with such a show of efficiency that they looked like a different team. Auburn never was in the ball game. The Tigers seemed resigned to their fate in the second half. They were sadly overmatched and . . . they knew it.

TULANE-MISSISSIPPI STATE

The Wave opened its November schedule with another neighbor from Mississippi, and the second one was as discouraging as the first. Shorty McWilliams and Company from Mississippi State routed the Wave before 40,000 spectators. Tulane had two scoring chances but were stopped each time, losing the ball once on downs on the State 10-yard line, and once on the four-yard stripe in the second quarter. Offensively the Greenies simply couldn't get along. Except for a flash in the second quarter when their drives failed to reach their mark, the Wave was mostly on the defensive. Miss. State scored early in the first quarter when McWilliams raced over tackle from the five-yard line. In the third quarter Jim Bailey drove over left guard from the two-yard line after another march. The final touchdown was made by McWilliams on a 19-yard run off left tackle. Ray Olsen played exceptionally well but left the game with injuries after recovering a punt which was blocked by Bob Franz in the second quarter. As the crowd dispersed, fans were remarking . . . "Well even if it isn't great in 48, it may be fine in 49".
TULANE-FLORIDA

After a week off, the Wave came back to take part in what was probably the least interesting game of the season. Florida came to New Orleans with a record of two wins and 4 losses, and for the first time since the Auburn game Tulane was rated a favorite. The Wave scored first. Van Meter and Bobby Jones alternated in driving down close to the goal and then combined their forces for the touchdown, Jones going over with Van Meter pulling. The Wave was playing pretty ball then, and when Ed Heider added his one to Jones’ six, the score looked pretty good. But, Hal Griffin, a Florida back, grabbed one of Finlay’s punts on his 42-yard line and ran until he fell on his face on the Tulane 13. Then

TULANE-NOTRE DAME

The amazing thing about the Tulane-Notre Dame game was that 57,000 fans braved freezing, murky weather to see it. Again it was a case of just no contest . . . Frank Leahy was out scouting California, but the Irish didn’t seem to miss him.

The weather handicapped the Greenies, but not half so much as Notre Dame did. Although the Wave played hard, they seemed to have difficulty holding the Irish’s kickoff’s and it wasn’t long before they found themselves five touchdowns behind. The Greenies fought back though, Van Meter playing the best game of his Tulane career, and when they did score they had the distinction of driving all the way from their own 17-yard line across the Notre
Dame goal. The Wave came back to New Orleans a whipped outfit, but they realized they could redeem themselves. There was still one game to play.

**TULANE-L. S. U.**

The largest crowd that ever saw a regularly scheduled football game in Dixie sat through an afternoon that could not be tied and watched the Greenies battle L.S.U. to a 6-6 tie. The Tigers went into the fray a so-called "favorite", but it wasn't long before the Wave had proved the ridiculousness of either team being called a favorite in an L.S.U.—Tulane contest. L.S.U. scored in the last second of the first half, but the Greenies, turned on a ground attack that at times swept the Bayou Bengals off their feet, registered 13 first downs against L.S.U.'s 12, and but for Y.A. Tittle's passes would have decisively outplayed the Tigers. The play Tulanians will never forget was the sleeper from Ellender to Heider, the second play of the second half. The play didn't score, but it knocked the wind out of L.S.U., and it wasn't long before the Wave held the ball on the Tiger's eight. Hoot took it over from there to tie the score. The Greenies played terrific ball, they played inspired ball, and to pick out stars would have been an injustice. The line battled the Tigers blue, the backs made them see Green. The season ended successfully.

TWENTY WINS

COACH WELLS

With 23 wins and 3 losses, the big five turned in the best cage record in Tulane history. But this isn't all the 1948 season boasts, it was also a record attendance year for basketball. Our reverses in football coupled with the brilliance of the cagers have gone far to convert Tulane to a "basketball school."

HIGHLIGHTS OF THE SEASON

The N. Y. U. contest, which saw Tulane participate in Madison Square Garden for the first time, drew Eastern acclaim for the Greenies. Against Wyoming Tulane's play was outstanding. The cool defensive and smooth offensive work of the Wave in the game served notice to the basketball public of things to come.

The Wave knocked down victories in two bowl games in a single week. The hoopsters conquered 1947's N. C. A. A. runnerup, Oklahoma, in the Sugar Bowl, then journeyed to Memphis to knock off Vanderbilt in the Delta Bowl. The Oklahoma game is believed by many to have been the best performance of the Wells-

men for the season. Perkins racked 24 points as the Greenies ran the big Sooners down.

The real highlight of the season was our two victories over L. S. U. Despite the roughness and shoddy play by both teams, a victory over L. S. U. is a highlight in any sport any season.

Another standout performance was the final regular game of the season. When the Greenies gained sweet revenge over a stubborn Alabama outfit that had handed the Wave one of its two seasonal defeats.

In the Southeastern Conference Tournament, Tulane reached the semi-finals by virtue of victories over Auburn.
and Vanderbilt. The semi-final game with Georgia Tech was probably the most disappointing event of the season. The Greenies were handed a solid defeat by a scrappy, underdog quint.

Tulane cage enthusiasts will remember the factors which made the Greenies a great team and a great team to watch. They will remember Risner's jump shot, that baseball like throw; Perkin's hook shot; and Athas' drive-in crip-shot; the overall steady play of Riffey and Payton, and the timely substitute work of Jamison, Peck and Svendson. The fast, hustling play of the freshman "eager beavers," as they have been called, was another factor which contributed to the crowd's staying until the final whistle had blown.
Three Greenies made the All-Southeastern Conference second team for seasonal play. These were Warren Perkins, Jim Riffey, and Virgil Risner. The "Greek" repeated as a member of the second team of the All-Tournament team.

Coach Simons' diamond stars completed a most successful season taking 17 games, and losing but 3, to Mississippi State, Thibodaux, and L. S. U. The real success of the season was, however, not realized until the last day of play, when the batsmen took the local double-header from L. S. U. Heroes of the afternoon were Ferd Lorio, with his five out of eight, and Ed Ludman who pitched in the first game, to close his record for the season with 6 wins and no losses. Ludman distinguished himself earlier in the year by striking out 14 Tigers in the second Baton Rouge L. S. U. game.

Outstanding stars of the season were Ray Dufrechou, Warren Perkins, Johnny Owen, Carleton Hale, Bernie Abadie, Stan McDermott, Ed Ludman, and Ferd Lorio.

Although the Wave thinnclads had their disappointing moments this year, the season might be classified as "eminently successful." We licked the Tigers in a dual meet. It was the Wave's first track victory over L. S. U. since 1931, when Johnny Oelkers, and Don Zimmerman led the field. Hugh Liles, Spencer Johnson, and Paul Bienz each won two events.

At the Southwestern Relays Spencer Johnson set a mile record of 4 minutes 24.5 seconds. Johnson went on to take the 3,000 meter run at the Texas relays.
Other than our L. S. U. win the only decisive victory of the season was our win over the University of Mexico. Our visitors from the south managed to eke out wins in two events.

The S. E. C. was an unhappy affair for Tulane. With the exception of Greek Athas' win in the broad jump, we failed to take an event, and finished in a poor fifth place.

The Wave's six lettermen, Glenn Gardner, Rufus Harris, Jr., Wade Herren, Dick Mouledous, Jack Tuero, and Harcourt Waters swept Tulane to another S. E. C. Championship this year concluding a terrific season. The netters' only defeat was an expected one at the hands of William and Mary. We were playing on foreign courts and William and Mary was plenty good.

Jack Tuero, our number one singles player went through the season undefeated, and continued on to win the S. E. C. championship. In the Southern Championship matches, Tuero advanced to the finals where he was defeated by Frankie Parker.

The finals of the S. E. C. tourney found an all Tulane show with Tuero defeating Herren in the Class A finals, and Gardner defeating Waters in the Class B event.

Seven linksmen and seven events constituted the 1947 golf competition. The team opened the season with a hotly contested scrap against the Spring Hill Badgers, coming out on the short end of a close score. When the Mobile squad came to Audubon Park, for a return match, Tulane hammered home its revenge, 9½-8½.

Ted Hewitt came through with wins in both meets, while Captain Charlie Rosen, Tom Sullivan, and John Gleason, Jr. all came out on top once.

An interesting problem arose when the local Army Air Base was encountered. They arrived minus one man, so Tulane's John Blane took to khakis and then defeated his Tulane opponent.

L. S. U. gave the Wave two convincing lickings before they went on to win the National Intercollegiates at Ann Arbor. During that tourney, Tom Sullivan, Ted Hewitt, John Gleason, Jr., and John Blane represented Tulane. Charles Rosen and Ted Hewitt played in the Southern Intercollegiates.

Bill Owen set an unofficial conference putting record during the L. S. U. dual meet in New Orleans by touring the Audubon greens in 22 putts.

The function of the Intramural Council is to encourage the entire male student body to participate in organized athletic sports, and also to encourage participation in active recreation. The Intramural Council organizes and promotes individual team competition. It fosters the spirit of sportsmanship between participants and spectators.

This, the second year since its reformation, has proved more successful, with more participation and interest than previously. The program this past year added football, in addition to handball, golf, track, tennis, swimming, and a cross country run.

The Pan-Hellenic Council is the governing body coordinating the eleven fraternities on the Newcomb campus. The council is composed of two representatives from each fraternity.

Some of the activities for the college year included a scholarship luncheon, sponsorship of the student and faculty style shows, sponsorship of the sociology lectures by Grace Sloan Overton, and a chapel week.

It has been the principal aim of the organization this year to further interfraternity spirit and to strengthen the entire group through modifications and enforcements of the regulations. This year’s council instigated a new Constitution and Rush Compact in order to fulfill these aims.

Alpha Delta Pi, the oldest Greek letter sorority for college women, was founded by Eugenia Tucker Fitzgerald at Wesleyan College in 1851. Epsilon, founded at Newcomb in November of 1906, is proud to be the second oldest active chapter.

This year the Alpha Delta Pi's have carried on their old tradition of hospitality by having "open house" before the football games. Also included in their social calendar was a delightful, bewitching Halloween Party given by the pledges, their annual formal held in March, and a Founder's Day Banquet, celebrated on May 15. The insignia is a diamond shaped pin set in pearls and the flower is the violet.

On October 24, 1909, Alpha Epsilon Phi came into existence at Barnard College in New York City. Seven years later, December 24, 1916, Epsilon chapter was installed at Newcomb, and has been going strong ever since.

A. E. Phi's colors are green and white, and the flower is the lily-of-the-valley. On the schedule of activities were two formals, one in the winter and one in the spring, a tea, and a party.

Outstanding on the campus were Felicia Schornstein, who was president of the Sociology Club, and Marjorie Issacson, who was very active in theatre work, and was the athletic representative of her class. Suzanne Alcus was secretary of Pan-Hellenic and will take over the presidency in September.

Established at Newcomb in 1898, Pi chapter is the second oldest sorority on the campus and the oldest active chapter of Alpha Omicron Pi. The colors are cardinal and white, the jewel is the ruby and the flower, the jacqueminot rose. On December 8, the A. O. Pi members and alumnae joined in paying tribute to their founders at the annual banquet. Other highlights of the social calendar included the dance in February and a luncheon for the Phi Beta Kappas in the spring.

Pi’s members devoted their time and efforts to the sorority’s social service work in Kentucky and other social work. The A. O. Pi’s also found time to take an active part in school organization and this year Ruth Boulet and Anna Hover were in the Homecoming Court.

Pi’s major officers were: Ruth Boulet, president; Jane Biederman, first vice-president; Virginia Brodie, second vice-president; Lucy Mac- Murry, recording secretary; Frances Crumbaugh, treasurer; and Anna Hover, corresponding secretary.

Chi Omega was founded at the University of Arkansas in 1895. Rho chapter came to Newcomb campus in 1900.

In the past year, Rho has upheld the standards set by the chapter for the past forty-eight years. Mary Ellen Sheehen wore the robe of Art School president and Elaine Jones was corresponding secretary of the student body. Rho's social work consisted of Easter and Christmas parties for the orphans.

Besides the more serious business of the chapter, Rho has had time for a winter formal, spring house-party, and numerous teas and suppers in the room. Mary Kay Hickey and Elaine Jones were chosen for the sweetheart of Sigma Chi court.

Delta Zeta was founded in 1902 at Miami University in Oxford, Ohio. Beta Upsilon at Newcomb College chartered in 1940 was the forty-second chapter of the national organization. Since that date the number of chapters has risen to sixty-two. Beta Upsilon easily found its place at Newcomb because of its early merger with Beta Phi Alpha which had been at the college since 1928.

Delta Zeta is especially proud of its members who have been and are now leaders in scholarship, honorary, academic, religious, and spirit groups. Tulane has always had one or more Delta Zeta cheerleaders since 1939.

The officers for the 1947-48 term were: Margery Rose, President; Helen Rault, Vice-President; Denise Reinecke, Recording Secretary; Christel Nungesser, Corresponding Secretary; Marie Louise Tureaud, Treasurer; Gayle Schwarzenbach, Historian.

"Theta Lips Are Smiling" is a familiar tune heard on all campuses where there are Theta chapters. It was made famous at Tulane last spring at the sorority song fest when the Theta's received first place.

Founded at De Pauw University of Indiana in 1870, Theta was the first Greek letter fraternity known among women. The Alpha Phi chapter was brought to Newcomb in 1914, and its members have taken an active part in college life.

Outstanding in college activities this year is Betty Ruth Davis who holds down the job of co-chairman of campus night. Mary Alyce Jackson, president of Pan-Hellenic, has been acclaimed for doing such a big part in making one of the best rush seasons ever known at Newcomb. She has also been elected to "Who's Who."

The Theta's social activities are highlighted with Sunday night suppers, teas, rush parties, and best of all, the spring formal in March. The Theta pin is kite shaped and the flower is the black and gold pansy.

Phi Mu, the second oldest sorority, was founded in 1852 at Wesleyan College in Macon, Georgia. Delta chapter came to Newcomb campus in 1906.

This year's activities began with rush parties, pledging and a banquet following the pledging ceremony. Phi Mu entertained with several teas during the year and the pledges gave monthly suppers for the actives and a Christmas party for a group from one of the New Orleans orphan homes. The outstanding event of the year was the Spring Formal in February, honoring the newly initiated members. The initiation ceremony was followed by a banquet for both new and old members.

High honors of the year were claimed by Merle Fischer. Merle was prexy of Alpha Sigma Sigma and head of orientation as well as pledge director of Delta chapter.

Phi Mu's colors are rose and white and the flower is the enchantress carnation.

Zeta Tau Alpha was founded at Virginia State Normal College, Farmville, Virginia, October 15, 1898. It was the first women's fraternity to be chartered in Virginia and the first one ever to be chartered by a special act of the legislature. Zeta Tau Alpha boasts of eighty-eight active chapters and one hundred alumnae chapters in all parts of the United States and Canada.

Beta Kappa chapter at Newcomb was founded in 1927 and has always been noted for its numerous parties throughout the years. Helen Sherard, Vice-President, is also the President of Beta Beta Beta and Frances Kyker holds the office of President of the Y. W. C. A. Patsy Goff was chosen to serve as one of the maids in the Tulane University Homecoming Court this year.

Beta Sigma Omicron was established Dec. 18, 1888, in Columbia, Missouri. Newcomb welcomed Alpha Sigma chapter on its campus in 1929. Since then the chapter has participated in numerous campus activities. Prominent among its members were: Beverly Bruff, president of the Tulane University Theater; Winfred Beier and Norma Stratz who figure in all Music School functions; and Ethel Eaton, treasurer of the Y.W.C.A. The chapter's social functions include among spontaneous parties, the annual Spring Formal, Spring Banquet, Founder's Day Banquet, the Chapter Birthday, and all Holiday Celebrations. The girls who wear the ruby and pink are rightfully proud of their scholastic record which surpasses their social accomplishments. They boast of representation on the Dean's List, Phi Beta Kappa, and several honorary societies.
Phi Delta Epsilon medical fraternity was founded at Cornell University in 1904. Alpha iota appeared on Tulane's campus in 1918. The big wheels in the fraternity are: Moe Claman, president; Bill Krivit, vice-president; Coleman Schneider, treasurer; Zelig Lieberman, secretary. The main activities of the year centered around monthly lectures, Saturday night socials, and picnics. Gerald Posner was elected treasurer of the freshman class and Jimmy Saft is the incoming vice-president of the Pan-Hellenic Council.

First Row: Sherman Bruckner, Sherwood Jacobson, William Krivit.
Second Row: Sam Lieber, Zelig Lieberman, Leon Meier.
Third Row: Gerald Posner, Floyd Roos, James Saft.
Fourth Row: Coleman Schneider.
Not in Panel: Maurice Claman, Charles Kahn,
The Theta Kappa Psi's first saw the light of day at the Medical College of Virginia in 1879. In 1904 they descended on the Tulane campus, and despite all efforts to the contrary, have become a fixture.

They are currently residing on St. Charles avenue in the vicinity of some other outfit of the same sort. They shattered the peace and quiet of their neighborhood last Halloween night with a large party, and tossed a formal dance sometime around Thanksgiving.

Carter Denton heads the lodge, assisted by Frank London, Skipper Bolding and Fred Berry share secretarial duties, and Tommy Summar is the house mother.

Their flower is the red rose, and the colors are green and gold.
First Row: Byron Allen, Jr., Richard Allen, W. T. Bailey, Andrew Jackson Berry, Ralph Billington, R. R. Boese.

Sixth Row: Joe Swartwout, G. H. Temple, W. S. Ullov.

Phi Chi medical fraternity was founded at the University of Vermont in 1889, and Omicron chapter hit the Tulane campus in 1902. Since that time, they have been distinguished by their strange affinity to houses built out of rock.

Besides a number of loud and lavish parties this year, they have also managed to squeeze in a few other activities, and point with pride to Jack Jackson and Tommy James, who can roll with any wheel on the campus.

The colors, green and white, and the flower, the lily of the valley, are supposed to be for the benefit of the members on their mornings after.

Jack Jackson heads this group, assisted by Tommy James, who goes under the title of Presiding Junior. Bob Ivy takes the minutes and Jack Moore handles the cash.

Fourth Row: Alexander W. Hulett, Jack Jackson, Thomas N. James, Millard Jenson, James E. Kraft, Elmo Laborde.

Fifth Row: Roy Laddbetter, George Lewis, Clu Flu Lusk, Lawrence S. McGee, Frank Marascalco, Robert Maxon.

In 1890, the stork left Phi Rho Sigma at Northwestern University. By 1918, there was a little chapter at Tulane. C. C. Jaubert is president of this group, ably assisted by R. R. Buie. Gernon Brown is the secretary, and M. R. Blais writes the checks. Their colors are scarlet and gold.
The Nu Sigs, who had their house rewired, repainted and rescreened this year, got their start at the University of Michigan in 1882. In 1910, they came to Tulane to stay. They say they throw renowned parties. Heading these paragons is Stanley Skillicorn. Alton Ochsner is vice-president, Leo Horan secretary, and John Gibson pinches the pennies.
Medical Pan-Hellenic Council is composed of members of the seven Greek Letter medical fraternities, and functions as the governing body for these fraternities. The council organizes and directs interfraternity competitions. A highlight of the medical school year is the Medical Pan-Hellenic dance.

The image contains a page from a yearbook featuring portraits of members from different fraternities and sororities, along with their names and affiliations. The text lists the members by name, fraternity, and state, with some additional information such as graduation years and academic disciplines. The layout is divided into rows, with each member's portrait and name presented in a grid format, correlating with their respective fraternity or sorority. The page is a snapshot of the social and academic life of the institution, highlighting the diversity of its student body.

ARNAUD'S

Few are the people who set foot on the sidewalks of New Orleans who do not seek to learn the location of Arnaud's and forthwith journey there to enjoy this famous cuisine. After partaking of a notable meal, guests frequently ask the derivation of a particular dish: "Is it French?" "Is it Spanish?" The answer is that it is a combination of the wizardry of the French with the art of the Spanish to make Arnaud's masterpieces.

Greetings to the Jambalaya From  
**TABASCO**  
The Sauce Supreme

Not only the standard of fine seasoning throughout the world for more than seventy-five years, but one of the open secrets of master chefs!

There are countless uses for TABASCO in every day dishes, but use it with discrimination—a few drops to make food tantalizing; a generous amount to make food hot.  
Summertime means Barbecue Time! For that extra something in your barbecue sauce, try TABASCO—once tried, always used!

Your Future and The Middle South

No spot in the United States offers the college trained man and woman more promise of a successful future than the Middle South—the Mississippi, Arkansas and Louisiana region. In this region, incomes have grown faster than in the United States as a whole . . . natural resources, agricultural products and transportation facilities have attracted new and expanding industry . . . a mild climate insures year around enjoyment of outdoor relaxation . . . and the 97% native-born population is friendly and pleasant. When you look to the future, choose a location with a future—the Middle South!

**Monday...**
Father opened the case in the living room and proudly displayed the new, streamlined Champion - the handsomest portable typewriter the family had ever seen.

**Tuesday...**
Said Betty, "It's marvelous... such smooth, easy action... and what clean-cut typing. Just wait until the history prof sees my typewritten notes."

**Wednesday...**
"It's neat," Bill exclaimed. "This way even writing compositions is a lot of fun. And, I'll have to talk to Dad about getting me an Underwood Champion when I go to college next year."

**Every day...**
One or more of the family take a turn on the Underwood Champion Portable. Mother has caught up on her correspondence. Father has written speeches, memos, and reports. Why not get a "Champion" in your home. You'll find it holds the keys that unlock the doors to advancement and progress... better work for the youngsters in school, modern writing convenience for the parents... and greater success for every member of the family.
